Executive Summary:

Community Development Block Grant Mitigation (CDBG-MIT) is a unique and significant opportunity for eligible grantees to use this assistance in areas impacted by recent disasters to carry out strategic and high-impact activities to mitigate disaster risks and reduce future losses.

The purpose of MIT-RIP is to assist local jurisdictions with mitigation-related infrastructure needs to support risk reduction from the three primary hazards (wildfire, flooding, and earthquake). MIT-RIP Projects must meet the HUD definition of mitigation, “activities that increase resilience to disasters

and reduce or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship by lessening the impact of future disasters.”
