ECONOMIC UPDATE

CONSOLIDATED ACCOUNT INFORMATION

INDIVIDUAL ACCOUNT INFORMATION

PORTFOLIO HOLDINGS &TRANSACTIONS

ECONOMIC UPDATE

- Recent economic data suggest slower growth in 2025 and greater market uncertainty as the effects of fiscal policy unfold. Inflationary trends have subsided, but some components remain sticky, and core levels remain above the Fed's target. The labor market reflects improved balance between supply and demand for workers. While job creation has been robust, continuing jobless claims remain elevated. Given the economic outlook, we expect gradual normalization of monetary policy and a steepening yield curve.

- As broadly anticipated, the Federal Open Market Committee (FOMC) left the Federal Funds Rate unchanged at the range of 4.25 - 4.50% at the March meeting. Fed Chair Powell emphasized increased uncertainty around the economic outlook and the need for "greater clarity" before making changes to interest rate policy. He also acknowledged possible transitory inflationary impacts from tariffs. The summary of economic projections (SEP) indicated lower GDP growth, higher inflation, and higher unemployment estimates than December projections, along with roughly two 25-basis point rate cuts this year. The FOMC also announced a slowdown in the pace of balance sheet reduction.

- US Treasury yields declined, and the curve steepened in March. The 2-year Treasury yield declined 10 basis points to 3.89%, the 5-year Treasury fell 7 basis points to 3.95%, and the 10-year Treasury yield was unchanged 4.21%. The spread between the 2-year and 10-year Treasury yield points on the curve widened to +32 basis points at March month-end versus +22 basis points at February month-end. The spread between the 2-year Treasury and 10-year Treasury yield one year ago was -42 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was -9 basis points in March, unchanged from February.

Nonfarm Payroll (000's)

Source: US Department of Labor

Unemployment Rate

Source: US Department of Labor

The U.S. economy added 228,000 jobs in March, exceeding consensus expectations, and the last two months were revised down by 48,000. Gains were led by healthcare, retail, social assistance, and transportation. The three-month moving average and six-month moving average payrolls totaled 152,000 and 181,000 respectively. The unemployment rate rose to 4.2% in March, and the labor participation rate edged up to 62.5%, remaining below the pre-pandemic level of 63.3%. The U-6 underemployment rate, which includes those who are marginally attached to the labor force and employed part time for economic reasons edged down to 7.9% in March from 8.0% in February. Average hourly earnings ticked down to an increase of 3.8% year-over-year in March.

Job Openings

The Labor Department’s Job Openings and Labor Turnover Survey (JOLTS) fell to 7.57 million new job openings in February from 7.76 million new job openings in January. Job openings indicate a ratio of 1.1 jobs for each unemployed individual, representing a relatively balanced labor market.

Consumer Price Index (CPI)

Source: US Department of Labor

Personal Consumption Expenditures (PCE)

Source: US Department of Commerce

In March, price increases measured by both the Consumer Price Index (CPI) and Core CPI, which excludes volatile food and energy components, decelerated from last month and came in lower than consensus expectations. The headline CPI dropped 0.1% month-over-month and rose 2.4% year-over-year, while the Core CPI rose 0.1% month-over-month and 2.8% year-over-year. The Personal Consumption Expenditures (PCE) price index increased by 0.3% from the previous month and 2.5% year-over-year in February. The Core PCE deflator, which excludes food and energy and is the Fed's preferred gauge, accelerated its increase to 0.4% month-over-month and 2.8% from 2.6% year-over-year. Inflation remains above the Fed's 2% target.

Retail Sales YOY % Change

Source: US Department of Commerce

Consumer Confidence

Source: The Conference Board
 All time high is 144.70 (1/31/00); All time low is 25.30 (2/28/09)

Advance Retail Sales increased 1.4% month-over-month in March following a 0.2% gain in February. Auto sales jumped, and spending ramped up broadly ahead of tariffs. Building materials, garden equipment, and restaurants also soared with the transition to spring weather. However, control group sales, which feeds into gross domestic product, increased a disappointing 0.4% in March. On a year-over-year basis, Retail Sales grew 4.6% in March versus 3.5% in February. The Conference Board's Consumer Confidence Index tumbled 7.2 points in March to 92.9, a notable decrease from February. Consumers' assessment of the present situation fell, and expectations for income, business, and labor market conditions dropped, with pessimism about future employment prospects falling to a 12-year low. While the consumer has been resilient, rising inflation expectations, concerns about trade policies and tariffs, and general economic and policy uncertainty could pose potential risks to future spending.

Leading Economic Indicators (LEI)

Chicago Fed National Activity Index (CFNAI)

The Conference Board's Leading Economic Index (LEI) fell by 0.7% in March, following a 0.2% decline in February. The LEI decreased by 3.5% year-over-year. The Conference Board forecasted slower growth ahead, as trade policy uncertainty took a toll on consumer sentiment, stock prices, and new orders for manufacturing. The Chicago Fed National Activity Index (CFNAI) increased to +0.18 in February from a revised -0.08 in January, reflecting stronger readings across production-related indicators and sales, orders, and inventories. The three-month moving average rose to +0.15 in February from +0.07 in January, indicating expectations of continued above-trend economic growth.

Annualized Housing Starts

Source: US Department of Commerce

S&P/Case-Shiller 20 City Composite Home Price Index

Source: S&P

Housing starts plunged 11.4% to 1.3 million units in March as builders anticipated higher mortgage rates and slower demand, as well as uncertainty about building costs for materials and labor. Single family starts plummeted 14.2%, and multi-family starts fell 3.5%. Total starts increased 1.9% compared to March 2024. The Freddie Mac 30-year fixed rate mortgage averaged approximately 6.7% in March. According to the Case-Shiller 20-City Home Price Index, housing prices rose 4.7% year-over-year in January, compared to 4.5% in December. While inventory constraints remain a challenge, the slight improvement in annual gains suggests gradual stabilization in the market. However, higher mortgage rates continue to weigh on affordability, limiting buyer demand and market activity.

The Institute for Supply Management (ISM) Manufacturing index dipped back into contraction at 49.0 in March from 50.3 in February. The survey reflected a decline in business activity, upward price pressures, and notably weaker employment. The ISM Services index declined to 50.8 in March from 53.5 in February as new orders, employment, and supplier deliveries all weakened. A reading over 50 indicates expansion, while a reading under 50 indicates contraction.

GROSS DOMESTIC PRODUCT (GDP)

Components of GDP	3/24	6/24	9/24	12/24
Personal Consumption Expenditures	1.3%	1.9%	2.5%	2.7%
Gross Private Domestic Investment	0.6%	1.5%	0.2%	-1.0%
Net Exports and Imports	-0.6%	-0.9%	-0.4%	0.3%
Federal Government Expenditures	0.0%	0.3%	0.6%	0.3%
State and Local (Consumption and Gross Investment)	0.3%	0.3%	0.3%	0.3%
Total	1.6%	3.0%	3.1%	2.4%

Source: US Department of Commerce

Gross Domestic Product (GDP)

Source: US Department of Commerce

According to the third estimate, fourth quarter GDP increased at an annualized rate of 2.4 percent, revised up 0.1 percentage point from the second estimate. Growth continues to be powered by consumer spending and government spending, partly offset by a decrease in investment. Imports also decreased. Real GDP increased 2.8 percent in 2024. The consensus projection calls for 1.2% growth for the first quarter and 2.0% for the full year 2025.

Federal Reserve Balance Sheet Assets

Source: Federal Reserve

Effective Federal Funds Rate

Source: Bloomberg

As broadly anticipated, the Federal Open Market Committee (FOMC) left the Federal Funds Rate unchanged at the range of 4.25 - 4.50% at the March meeting. Fed Chair Powell emphasized increased uncertainty around the economic outlook and the need for “greater clarity” before making changes to interest rate policy. He also acknowledged possible transitory inflationary impacts from tariffs. The summary of economic projections (SEP) indicated lower GDP growth, higher inflation, and higher unemployment estimates than December projections, along with roughly two 25-basis point rate cuts this year. The FOMC also announced a slowdown in the pace of balance sheet reduction. The monthly redemption cap on Treasuries will be reduced from \$25 billion to \$5 billion, while the cap on agencies and mortgage-backed securities will be maintained at \$35 billion. Since the Fed began its Quantitative Tightening campaign in June 2022, securities holdings have declined by approximately \$2.2 trillion to approximately \$6.8 trillion.

US Treasury Note Yields

Source: Bloomberg

US Treasury Yield Curve

Source: Bloomberg

At the end of March, the 2-year Treasury yield was 74 basis points lower, and the 10-Year Treasury yield was 6 basis points higher, year-over-year. The spread between the 2-year and 10-year Treasury yield points on the curve widened to +32 basis points at March month-end versus +22 basis points at February month-end. The recent yield curve inversion which began in July 2022 was historically long. The average historical spread (since 2005) is about +99 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was -9 basis points in March, unchanged from February.

CONSOLIDATED ACCOUNT INFORMATION

Investment Objectives

The investment objectives of the County of Lake are first, to provide safety of principal to ensure the preservation of capital in the overall portfolio; second, to provide adequate liquidity to meet all requirements which might be reasonably anticipated; and third, to earn a commensurate rate of return.

Chandler Asset Management Performance Objective

The performance objective for the portfolio is to achieve a rate of return over a market cycle that equals or exceeds the return on a market index of similar duration and sector allocation.

Strategy

In order to achieve these objectives, the portfolio invests in high quality fixed income securities consistent with the investment policy and California Government Code.

Lake County | Account #10838 | As of March 31, 2025

2025 Chandler Asset Management, Inc, An Independent Registered Investment Adviser.

Information contained herein is confidential. Prices are provided by ICE Data Services Inc (“IDS”), an independent pricing source. In the event IDS does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance results are presented gross-of-advisory fees and represent the client’s Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Source ICE Data Indices, LLC (“ICE”), used with permission. ICE permits use of the ICE indices and related data on an “as is” basis; ICE, its affiliates and their respective third party suppliers disclaim any and all warranties and representations, express and/or implied, including any warranties of merchantability or fitness for a particular purpose or use, including the indices, index data and any data included in, related to, or derived therefrom. Neither ICE data, its affiliates or their respective third party providers guarantee the quality, adequacy, accuracy, timeliness or completeness of the indices or the index data or any component thereof, and the indices and index data and all components thereof are provided on an “as is” basis and licensee’s use it at licensee’s own risk. ICE data, its affiliates and their respective third party do not sponsor, endorse, or recommend chandler asset management, or any of its products or services.

This report is provided for informational purposes only and should not be construed as a specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

Ratings information have been provided by Moody’s, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities (“MBS”) reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest and carries a AA+/Aaa/AAA by S&P, Moody’s and Fitch respectively.

BENCHMARK DISCLOSURES
