Good morning: I just ran the NSN and the serial number; both separately and together, it is not, nor has it been, in the LESO system. I am confident that this is not a LESO Program property for the following reasons: 1. It is a tracked vehicle and LESO does not allow tracked tactical vehicles; and 2. The NSN, not the serial number are in our system as an active or closed piece of property.

Respectfully,

People First

Janice,

Here is the Data plate for the M113 that I just spoke to you about. The Serial Number is C5056 and the NSN is 2350-01-068-4077.

We are just looking to ensure that this is not part of the 1033 program.

Thanks,
Gavin
