HAIP & COMMUNITY ENGAGEMENT

The HAIP team sought out community input and implemented a very extensive community engagement plan. This was accomplished by attending community events, a comprehensive community survey, outreach to local developers, hosting numerous stakeholder meetings, consulting with local tribal nations and collaborating with the Lake County 2050 team as well as attending LAP and GPAC meetings.

Appendix A lists the details of the Community Engagement for the HAIP and will be discussed later in this presentation.

GAPS ANALYSIS

HOUSING GAPS

- Housing Rehabilitation Needs
- Need for Housing of All Types and for Specialized Groups
- Vacant Infill Sites
- Insurance Industry and Coverage

Housing Action and Implementation Plan (HAIP)

7

GOALS AND STRATEGIES

GOAL 1: Create Housing for all Economic Levels and Build a Variety of Housing Types

Strategy 1.1: Work to increase the number of Accessory Dwelling Units (ADUs) in Lake County through a variety of strategies to promote housing affordability, resilience, and prevalence.

Housing Action and Implementation Plan (HAIP)

8

GOALS & STRATEGIES

- Strategy 1.2: Increase the number of homeless housing options and programs to serve vulnerable populations, including actions to support a variety of housing types, such as transitional housing, supportive housing, and tiny home villages.
- Strategy 1.3: Expand opportunities for small lot residential development throughout the County.
- Strategy 1.4: Work to build a variety of residential options, particularly those that offer residents amenities, affordability, and resilience, such as mixed-use developments.

Housing Action and Implementation Plan (HAIP)

9

GOALS & STRATEGIES

- Strategy 1.5: Create housing to serve Lake County's Workforce.
- Strategy 1.6: Address housing needs for first-time homebuyers.
- Strategy 1.7: Work to increase the number of housing units for veterans in Lake County.

Housing Action and Implementation Plan (HAIP)

10

GOALS & STRATEGIES

- Strategy 1.8: Work to increase the amount of housing for seniors in Lake County.
- Strategy 1.9: Change Housing Authority model to increase viability, expand the number of available housing choice vouchers and establish a project-based voucher program.

Housing Action and Implementation Plan (HAIP)

11

GOALS & STRATEGIES

- Strategy 1.10: Use Geographic Information Systems (GIS) to continue to update the HAIP sites inventory and refine the list of potential sites for housing development. Maintain an online, interactive webmap of identified sites.
- Strategy 1.11: Create opportunities for all three jurisdictions to collaborate on securing funding and administering programs.

Housing Action and Implementation Plan (HAIP)

12

GOALS & STRATEGIES

GOAL 2: Encourage and Facilitate Infill Development

- Strategy 2.1: Focus the siting and design of new homes on infill in fire-safe areas, including integrating fire safety measures into housing development policies
- Strategy 2.2: Build homes in areas with access to infrastructure, resources, and transportation networks that are walkable and bikeable.

Housing Action and Implementation Plan (HAIP)

13

GOALS & STRATEGIES

- Strategy 2.3: Establish a local land trust/community land trust to buy "checkerboard" lots left in areas where there were fires (e.g., Cobb) and do infill development. Building homes under this strategy would also address unmanaged vegetation on vacant lots, which is an additional fire hazard.

Housing Action and Implementation Plan (HAIP)

14

GOALS & STRATEGIES

GOAL 3:

Maintain and Rehabilitate Homes and Neighborhoods

- Strategy 3.1: Support programs that assist with home repairs, in particular for elderly homeowners.
- Strategy 3.2: Increase technical assistance and capacity to assist with maintaining and rehabilitating homes.

Housing Action and Implementation Plan (HAIP)

15

GOALS & STRATEGIES

GOAL 4:

Address Issues with Mobile Homes

- Strategy 4.1: Identify funding opportunities and pathways to update mobile home parks or replace them with affordable non-mobile home units for the tenants.

Housing Action and Implementation Plan (HAIP)

16

GOALS & STRATEGIES

GOAL 5: Remove Regulatory Constraints and Streamline Processes to Facilitate Housing Development

- Strategy 5.1: Streamline development review processes, consider fee reductions, and increase communication and information for applicants.

Housing Action and Implementation Plan (HAIP)

17

GOALS & STRATEGIES

- Strategy 5.2: Amend the County of Lake Zoning Ordinances and create incentives that are designed to increase the development of prioritized types of housing (as described throughout these strategies).

SITE ANALYSIS: PURPOSE & DELIVERABLES

Purpose:

- Support implementation of the HAIP goals and strategies
- Identify priority sites to focus efforts for encouraging and incentivizing housing production
- CDD to Prepare for the upcoming 7th cycle Housing Element

Deliverables:

- Site Analysis Summary Report
- Geographic Information Systems (GIS) - based resources
- Geodatabase feature class ("GIS layer")
- Excel file export of the GIS layer's attribute table
- Interactive, online HAIP Parcel Map ("webmap")

Housing Action and Implementation Plan (HAIP)

23

SITE ANALYSIS: PROCESS

Geographic Information Systems (GIS) - Based Analysis

- Started with Countywide GIS-based parcel data:
 - *Location, acreage, land values, structure values, ownership, General Plan Land Use & zoning*
- Enriched it by adding data layers and embedding each parcel with additional information:
 - *Hazards & constraints, utilities, proximity to amenities, community growth boundaries, recently permitted housing projects, local knowledge*
- The lack of comprehensively reliable vacancy data is a major impediment.
- Conducted various analyses using combinations of different criteria to identify types of potential housing sites.

Housing Action and Implementation Plan (HAIP)

24

SAMPLE SITE PRIORITIZATION FACTORS

- Parcel size
- Undeveloped
- Not open space, agricultural, or resource conservation
- Not in a hazard area
- Government owned
- Within a community growth boundary
- Would likely score additional points on competitive tax funding application due to proximity to amenities and services
- Allows at least 15 units per acre

Housing Action and Implementation Plan (HAIP)
