Hey Lt.,

I hope you have been doing well! Have y'all been liking and using the M4Ts? Any issues with them I can help out with?

We took the Avata 2s off our website for online purchasing when they were facing supply chain issues as we only wanted to distribute to public safety and not consumers. This helped us contain who we would sell these to.

I have the attached quote for three setups. The Sourcewell discount only applies to DJI Enterprise, not consumer series, but I did take a discount off the cases since GPC allows for a discount for Sourcewell there. It's not much but I hope it helps.

Let me know if you have any questions or need any revisions.

Thank you,

Ray Cruz

Hi Ray-

Our department is looking at Avada 2 drones again. We are looking for three complete packages. I was thinking the fly more bundle, another set of props, lights, and hard carrying case for each. I saw that they were out of stock on your website, but you guys did great on our last department drone purchase so I thought I would ask.
