---

Apologies if this is too late:

Mr. Chair & Board,

Once Lake County has been approved for it's woefully delayed Stage 2 variance application, I encourage your board to allow indoor seating at restaurants, following the very strict state guidelines. Many of our local restaurants do not have the capability of outdoor seating and this unfairly discriminates against their businesses.

Secondly, I encourage the full opening, again under the very strict state guidelines, of our strip mall retail establishments as provided by the Stage 2 Variance.

Thank you,

Martin Scheel  
Lakeport
