**Subject:** Re: Appeal

Members of the planning commission violated the brown act by making prejudicial comments regarding my application prior to the hearing.

Good morning Richard,

I received this note below, however it's not what the code requires for an appeal.

We need a statement indicating what the basis for the appeal is. This should be based on what you believe to be a mis-application of the Code on the part of the Planning Commission. Simply saying that you are appealing the decision doesn't meet the requirement for what we need to process an appeal.

You're welcome to call me at 707-263-2221 if you wish to discuss this further. Meanwhile, the appeal application remains 'incomplete' until we receive the statement from you.

Thank you,  
Eric Porter
