

County of Lake Board of Supervisors

June 1, 2024

Re: The Board Resolution to Recognize Calpine's 40 Anniversary  
proposed by D5 Supervisor Jessica Pyska.

The Lake County Silver Foundation [LCSF] is very pleased with the proposed forward thinking resolution. If it we're not for support from the business sector, many not-for-profit public organizations could not exist or function as well. Calpine has been a major supporter of LCSF for several years. We are open to donations from all sectors and the list is eclectic with Calpine among the top donors that make events such as the Senior Summit possible.

The LCSF produced Senior Summit- Health and Wellness Fair brings government and private sector support providers and speakers in contact with 250 seniors and elders. This event helps support-programs function better through this contact and our survey of needs provides feedback for program improvements. We also recognize those outstanding seniors and elders who give back to the community. The recognition award is joined by Congressman Mike Thompson and elevates the spirit and visibility of the amazing give-back efforts by the eldest generation.

Thank you for stepping up with recognition for a business sector entity that is a major energy producer but also a major community supporter. Your recognition might inspire others to become high value community partners.

Respectfully,

Jim Steele

President, Founding Director, Lake County Silver Foundation.
