Dear Christopher,

This is to confirm that the Imperial County Office of Education (ICOE) is the sole source provider for the California State Library (the State Library) California Library Connect Broadband Project and associated grants. Lake County Public Library began contracting with Califa for this service in 2016 and changed to CTC Technology and Energy in 2022. Starting January 1, 2024, the California State Library now contracts with ICOE to manage administration, including contracting and billing, for this broadband service. Additionally, on behalf of the State Library, ICOE contracts with CENIC for access and connectivity to the CalREN high-speed network for California public libraries, and libraries must contract with ICOE to access the network. CENIC manages E-rate submissions for these connections and the RFP process for soliciting bids from carriers on behalf of participating libraries. This service is only available through contracting with ICOE on behalf of the State Library.

The specific service you renew through ICOE is detailed in the attached Agreement. Please do not hesitate to contact me if you have any questions.

All the best,

Luis Wong (Mar 1, 2024 10:25 PST)
