2022 Annual EMSAAC Conference

**EMS
ROCKS
&
RECOVERS!**

2022 ANNUAL
EMSAAC
CONFERENCE

June 1 & 2, 2022

Omni San Diego Hotel

OMNI® HOTELS
& RESORTS

Monitor the EMSAAC website for current information @ www.EMSAAC.org

EMS ROCKS & RECOVERS!

The EMS Administrators' Association of California (EMSAAC) cordially invites California's EMS leaders and professionals to join us for the EMSAAC Annual Conference 2022 at the Omni San Diego Hotel in the heart of the San Diego Gaslamp Quarter. EMSAAC continues to lead the way in creating conferences that are meaningful and exciting to attend. This year's theme, "EMS ROCKS & RECOVERS!" provides a broad variety of subject matter to interest all levels of prehospital care personnel and managers including ambulance providers, fire department personnel, military and law enforcement partners, EMS agency personnel, ED nurses, physicians, emergency preparedness coordinators and all of you who provide lifesaving emergency medical services to your communities. The conference includes lectures, panel discussions and opportunities to network with current leaders and innovators in EMS as well as preview new and upcoming equipment, products and services.

About EMSAAC

EMSAAC is composed of administrators from 33 Local EMS Agencies (LEMSAs). These county-designated agencies are responsible for planning, coordinating, implementing, monitoring, and evaluating a local, integrated system of emergency medical services. The LEMSAs partner with the California EMS Authority to carry out applicable laws and regulations.

Continuing Education Credits

This conference has been planned and implemented to provide instructor-based continuing education for nurses and prehospital care professionals through the Orange County Emergency Medical Services Agency, a division of the Orange County Health Care Agency.

Provider is approved by the California Board of Registered Nursing, BRN Provider #13945 for up to 10 contact hours. California EMS CE provided by the Orange County EMS Agency CEP#30-0001. Up to 10 hours of instructor-based CE will be issued to EMTs, paramedics and MICNs upon completion.

OMNI HOTELS & RESORTS

Make your hotel reservations today!

Omni San Diego Hotel
675 L Street, San Diego, California 92101
Reservations: 800-THE-OMNI OR 800-843-6664 Code: EMSAAC
Online: <https://www.omnihotels.com/hotels/san-diego/meetings/emsaac>
Located in the heart of the Gaslamp Quarter.

The Resort

With miles of sandy beaches and an average temperature of 70 degrees year-round, San Diego is a premier travel destination. This AAA 4-Diamond Award Winning hotel is one more reason to visit this fabulous seaside city. Located in the heart of the historic Gaslamp Quarter and across from the convention center, the hotel puts you close to the city's most popular tourist attractions. Explore Balboa Park, take a harbor cruise or catch a professional baseball game at PETCO Park, connected via a pedestrian skywalk.

Rates & Reservations

Please make your own reservations and be sure to request the EMSAAC Conference reduced rate of \$219 per night plus a \$20 resort fee (excludes taxes).

This low rate includes:

- ▲ Complimentary WiFi in Guestroom and Lobby
- ▲ Outdoor Terrace with Stone Fireplace, Heated Pool and Hot Tub
- ▲ Complimentary 24 hour Fitness Center

A block of rooms will be held until April 30, 2022. After this date, reservations will be accepted on a space and rate available basis only. This conference rate will be offered on a space available basis only and will be subject to restrictions. Accommodations are available for check in at 4:00 pm. Check out is at 11:00 am.

Your Accommodations

Relax in the privacy of San Diego's finest hotel accommodations. The 511 newly renovated elegant guest rooms and suites are decorated in a luxurious, contemporary style and feature the most modern amenities. Take in the extraordinary views of the San Diego Bay, the downtown skyline or PETCO Park from the comforts of your guest room. Accommodations will welcome you with California warmth and sophistication throughout your stay.

PARKING

The Hotel provides valet parking only at a rate of \$50 per vehicle, per night. A public parking lot, 6th & K Parkade, is located across the street at a rate of \$20/24-hours, subject to change.

Conference Program

Director, San Mateo County EMS Agency

8:15 am – 9:00 am

Welcome to Rock City USA, San Diego

Captain Timothy J. Barelli
United States Coast Guard

9:00 am – 10:00 am

KEYNOTE SPEAKER

The Legend: Unmasking COVID Parody in Prehospital Care

Steve Berry, BA, NRP

Those working in the field of emergency medicine have long recognized the need and art of lampooning that which hurts us. The humor is often dark in content and may appear insensitive to those on the outside, but in truth it is a learned survival skill long known for its physiological and mental health benefits. COVID-19 remains a continuous health care crisis with no apparent end in sight and this talk will explore how we have found humor as a health-protecting cognitive coping resource along with the absurdities and imperfections of our world during the pandemic. One may not be able to change the realities of this disease, but it is in our control to change how we feel about it.

10:00 am – 10:45 am

Jam Session: Break with Exhibitors

10:45 am – 11:45 am

Hard Rock: How to Conduct EMS Investigations?

Aaron Doyle, EMT-P, Contra Costa County EMS Agency

There is no manual for when or how a LEMSA should conduct EMT disciplinary investigations. This presentation will provide a basic overview of the LEMSA's role in EMT disciplinary investigations and the step-by-step process to ensure the LEMSA's investigation process can withstand scrutiny. The presentation will cover how to conduct EMT and witness interviews, gathering information such as police reports, and preparing investigative reports, processing subsequent arrest notifications, and reporting to the National Practitioner Data Bank and the Office of Inspector General.

11:45 am – 1:00 pm

Let's Twist (lunch) & Networking

1:00 pm – 2:30 pm

New Waves – Research Panel

Moderators:

Karl Sporer, MD, Alameda County EMS Agency
Nichole Bosson, MD, MPH, LA County EMS Agency

Organized by EMDAC, rave reviews are received each year for a panel of EMS researchers who present relevant data, including cutting-edge research and new publications, to keep us abreast of the newest innovations and evidence-based advances in prehospital care.

1) Allowing Natural Death in EMS

Amelia Breyre, MD, Santa Clara Valley Medical Center

The EMS system is well designed for aggressive life-saving interventions, prompt treatment, resuscitation and transportation of patients. However, for patients with serious illness, such as those enrolled in hospice, invasive interventions may not be aligned with their goals of care. We will explore how to improve care near the end of life for patients, particularly for those that prefer to allow a natural death.

2) Mobile Stroke Units

May Nour, MD, PhD, UCLA

Transition from evidence to practice is the next challenge for Mobile Stroke Units (MSUs) now that two controlled studies have shown improved patient outcomes (BEST-MSU and B_PROUD). This requires successful clinical operations as well as integration into EMS systems. This talk will highlight clinical applications of mobile stroke units, operational logistics, geospatial mapping of operating locations and most importantly, integration into the fabric of EMS and prehospital care.

3) Advanced Practitioner Response Units as a Component of Mobile Integrated Health

Saman Kashani, MD, LA County FD

The traditional EMS model of "you call, we haul" is dated and inefficient. Increasing demand for 9-1-1 services needs to be met with novel programs. The Los Angeles County Fire Department's (LACoFD) Advanced Provider Response Unit (APRU) Program partners a nurse practitioner with a firefighter/paramedic (FFPM) on a specialty unit that responds to low-medium acuity calls for emergency medical services (EMS). The APRU is able to perform assessments and simple interventions in the pre-hospital setting and triage patients to appropriate levels of follow-up based on the acuity of their condition and access to healthcare services. In addition, the APRU performs in-home assessments for high-risk patients identified by other department personnel and high system utilizers. By working with these patients, the APRU program is able to identify and intervene on the social impediments to care and improve the patient's health while reducing their need to access critical safety net services.

2:30 pm – 3:15 pm
Cut a Rug with Exhibitors

3:15 pm – 4:15 pm
Measured Music: Healthcare Finance and Economic Update
Rick Narad, DPA, JD

EMS is influenced by both politics and economics. No matter how important we think we are, we can't do what we do without political and economic support. This presentation will look at political and economic impacts on EMS and identify directions (some potentially scary) for EMS if we don't get this support.

4:15 pm – 4:30 pm
"Get Down" -- Day's Wrap Up

5:30 pm – 6:30 pm
Trip the Light Fantastic: President's Reception
Exhibit Hall (light hors d'oeuvres)

DAY 2 - Thursday June 2, 2022

8:00 am
Rock and Rollers – Visit Exhibitors
Continental Breakfast in Exhibit Hall

8:30 am – 9:00 am
Roll It Up – Day's Introduction & Leadership Award
Trevor Douville, EMSAAC President-Elect
Administrator, Riverside County EMS Agency
Travis Kusman, EMSAAC President
Director, San Mateo County EMS Agency

9:00 am – 10:00 am
KEYNOTE SPEAKER
Art-Rock: Mental Health, PTSD & Post-Traumatic Growth
Dan Sun, FF/EMT-P

Post-traumatic growth is more than recovering, it is about reconfiguration and becoming a better person than you were before the injury occurred. My journey from battling my demons to purging my nightmares in artwork is shared through images based on calls I have attended as a paramedic and firefighter. I will share how my job nearly destroyed my life and, although this is my story, you may connect with them through your own experiences and realize you are not alone in how you are feeling. More importantly, I will share what I did, and continue to do, to build resiliency and recover from my mental stresses. If I can do it, so can you.

10:00 am – 10:30 am
Rock Out with Exhibitors

10:30 am – 11:30 am
The Two-Step: Post-COVID Stress & Endurance
Merritt D. Schreiber, PhD

Anticipate. Plan. Deter: This presentation will cover a continuum of approaches to reduce PTSD, depression, burnout and enhance endurance in frontline providers.

11:30 am – 12:30 pm
Shebang!! Lunch & Final Visit with Exhibitors

12:30 pm – 1:30 pm
Stop the Show: The Effects of Pronouncing Patients on Scene and How Do We Do It
Alexandra Y. Jabr, MS, EMT-P

Research continues to stress the importance of remaining on scene for up to 30 minutes in an effort to improve outcome and survivability of cardiac arrest patients. But what happens when even the most successful efforts result in futility and a patient must now be pronounced on scene? Historically, institutions have failed to prepare first responders for this outcome, and "training" for these situations are experiential, at best. As a result, crews continue to default into a "transport for the family," "CPR" or "just for show" mentality that has only contributed to the cultural resistance we face. Because of this practice, we have failed to recognize our unique role in the grieving (healing) process, which begins for the survivors at the moment that we determine time of death of the patient. Let's have a healthy conversation about something we are all subject to, but nobody talks about; Death.

1:30 pm – 2:30 pm
Heavy Metal: PTSD Experience -- Recognition & Management
Benjamin Vernon, FF/EMT-P

On June 24, 2015, Ben's life changed. While responding to a "routine medical assistance" call, he was stabbed multiple times by a bystander. The incident led Ben to become a champion for first responder PTSD recognition and treatment. He now travels the country to share his story to help others, while still continuing to serve his community from Station 14 in San Diego.

2:30 pm – 2:45 pm
Brief Intermission

2:45 pm – 3:45 pm
Fusion: Putting EMS Recovery All Together
Dan Sun, FF/EMT-P

Dan will take this opportunity to use his art and knowledge to reinforce the key messages end with a memorable closing device that will send you on your way knowing that you have new skills to deal with stress, emotional trauma and just the daily life of an EMS provider.

3:45 pm
See You Later, Alligator - Final Raffle, and Wrap Up

Keynote Speakers

Steve Berry, BA, NRP – Steve, a former teacher and interpreter for the hearing impaired, has been in EMS for over 37 years and is currently a working paramedic and instructor for Southwest Teller County EMS in Colorado. Believing humor is an essential amino acid in surviving prehospital care, Steve has written over 140 humor articles for JEMS along with cartoon illustrations for JEMS and EMS World magazines. He is the author of the cartoon book series, “I’m Not An Ambulance Driver”. As both a national and international speaker for emergency health care providers, Steve seeks world peace and frequent flyer mileage.

In a recent interview, he shared – I would add that this kind of humor must be “earned and learned” by those entering the field. Many tears may have to be shed before this kind of humor can be appreciated and integrated. There is a balance, and laughing does not negate the need for crying. Not everything is a joke. Timing is everything. Most important, one should not apologize for their tears. It’s proof that you’re emotionally alive, and not just in it for the tubes and IVs.

Dan Sun – Daniel was born in Alberta, Canada. After taking up global residency as an English language teacher in Egypt, Mexico, Indonesia and Japan, he became a firefighter and paramedic for the City of Leduc. His love of photography began on his travels, and as his technique developed, he started to produce a blend of photography and graphic art, which he calls Photo Art. The majority of Daniel’s work involves emergency services photography and an emotional connection to the artist as most of his pieces are based on actual emergency calls he has attended as a paramedic and firefighter.

He is passionate about reducing the stigma of PTSD for first responders and he uses his art to raise awareness of occupational stress injuries worldwide. He is a published artist/writer and has two art books produced of his works. Articles of his work have been features in Canadian Paramedicine, JEMS Fire Rescue Magazine in Greece and WMS World Magazine. His art is recognized worldwide and he travels internationally speaking on his art and personal experiences with occupational stress injuries. He is a prehospital educator, a professional public speaker, photographer and photo editor. He enjoys combining the technical and artistic elements of his work. Each piece can take several days or weeks of processing until he feels it is ready. He continues to travel often and gains inspiration for his art from his experiences.

Must Check One:

☐

In Person at Hotel

☐

Virtual Option**

**Virtual Option will be provided to those individuals unable to attend in person. A Zoom platform will be used and monitored to allow participation and issuance of continuing education after providing necessary documentation. Due to additional costs associated with hosting a virtual option, the registration fee is the same as in person. If checked, additional information and a link will be provided prior to the conference.

Questions regarding registration and refunds should be directed to Carol Meyer at (562) 343-3326 or crmeier411@gmail.com

Sponsors & Exhibitors

Many generous sponsors and exhibitors make the EMSAAC Conference possible. The conference is an outstanding opportunity to see the latest and greatest new EMS tools and applications as well as to meet the representatives and directly discuss material needs. The following is a list of sponsors and exhibitors to date; others will be joining this distinguished group:
