Blue Ribbon Committee for the Rehabilitation of Clear Lake

**RE: Lake County Land Trust Grant Application “Lake County Conservation, Restoration and Stewardship Improvement Capacity Building Project”**

Dear Committee Members,

The County of Lake fully supports the **“Lake County Conservation, Restoration and Stewardship Improvement Capacity Building Project”** project being submitted by the non-profit Lake County Land Trust (LCLT). With this letter, we are acknowledging our support for both the LCLT and the proposed project and its goals. We understand the project would benefit from partners to meet deliverables and would be willing to engage with the LCLT to discuss being more participatory in the project, should specific project needs arise.

For the last 32 years, the Lake County Land Trust has provided vital services in the conservation and protection of environmental, scenic, cultural, and historical resources. We support the LCLT efforts to continue and enhance this important work through education, cooperation, restoration, and conservation – including the development and maintenance of tribal partner and community collaborations.

The project is essential to continue building the capacity for the LCLT, through four essential tasks that include expanding education and outreach programming on LCLT and partner lands, improving access through conservation and stewardship of wildlands and waters, and improving the capacity of the LCLT to acquire - through purchase, donation, or easement agreements- high priority Clear Lake basin habitats for conservation and protection.

The County of Lake fully supports the LCLT in their efforts to improve the terrestrial, aquatic, and cultural landscape, and are willing to enter into discussions to collaborate in project efforts, discussions and engagement activities to meet project deliverables. The outcome – increased acres and stewardship of conservation lands and waters – will benefit Clear Lake, wildlife, people, plants, and the natural and built communities throughout Lake County. We hope you will support the LCLT by funding this project.

Sincerely,  
COUNTY OF LAKE

---

Chair, Lake County Board of Supervisors
