**Subject:** [EXTERNAL] Site Visit to Lui Farms 8531 High Valley Road, Clearlake Oaks

Dear Representatives and Supervisors,

The residents of High Valley would like to know when you have all actually driven up High Valley Road to the site of Lui Farms and all the other addresses for proposed cannabis grows on High Valley Ridge. We would like for you to see with your own eyes and experience the road conditions that exist for these additional vehicles that will be impacting our road. Make sure to drive your cars over the trench crossing the road that is filled with branches; it's quite an experience. You may want to take a truck with good ground clearance and lots of traction as the road is riddled with large holes and trenches running in all directions. Perhaps it would be best to wait for the recent rain to dry a bit so you can actually make it up the road and not slide off over the edge of the narrow, steep terrain. Also, you may want to time your visit during East Lake School hours of drop off and pick so you can get the full effect at the intersection of Highway 20 and High Valley Road.

Please let us know when you have visited our beautiful valley firsthand. We will expect to hear about your experience at the next planning commission meeting for any of these proposed projects.

Additionally, please appreciate and consider the natural beauty of the flora and fauna of our forested ridge that you are handing over to organizations that will permanently destroy what God has given us to respect and protect for all of his creations. The animals need the safety of this area and your consideration as well.

Thank you for your time. We anxiously await your replies.

Please add the attached email to the public comment section associated with UP 20-23 Lui Farms. We are opposed to any and all new businesses slated for High Valley Road and High Valley Ridge in Clearlake Oaks, California.

Thank you!!
