Table 1. COTF Recommendations as of November 18, 2024

Section or Topic	Current Regulation/Language	COTF Recommendation	COTF Meeting Date of Motion
Permit Types, Table 27.11B, pg. 27-36	Cannabis license types and required planning permits are listed in Table 27.11B	The COTF recommendations include permits within agriculture, commercial, and industrial zoning districts. There are new business types and uses, existing uses in additional locations, and changes in the level of permit required. Exhibit A of the Board Memorandum includes a summary of these recommendations, as well as input from the PC and BOS	August 2022- October 2023. Also reviewed by PC December 14, 2023 and BOS February 6, 2024
General Requirements, Section 27.13(at)(1)(ii). pg. 27-111	In order to obtain a Lake County Permit for commercial cannabis activities, as described in Article 73.2 of this ordinance, a person or entity must ensure the project meets all requirements for general development, performance, and application standards of the Zoning Ordinance, the policies of the Lake County General Plan, the policies of the applicable community area plan, environmental requirements as described in the California Environmental Quality Act, and any other applicable requirements described in the Lake County Municipal Code .	Leave language as is	April 8, 2024
State License Requirements, Section 27.13(at)(1)(ii)(a).	 (1) Department of Cannabis Control Requirements. State licensure and permits as required. A person or entity shall not engage 	Remove the listed agencies and provide a broader more encompassing statement such as the first sentence. Recommended language:	February 12, 2024

	in the commercial cultivation of cannabis without first obtaining a Lake County minor or major use permit, a state cannabis cultivation license, and applicable permits such as from Department of Cannabis Control, Department of Food and Agriculture, Department of Pesticide Regulation, Department of Fish and Wildlife, the State Water Resources Control Board, Board of Forestry and Fire Protection, Central Valley or North Coast Regional Water Quality Control Board, Department of Public Health, and Department of Consumer Affairs, as appropriate.	(1) A person or entity shall not engage in commercial cannabis activities, as described in section 73.2 of this ordinance, without first obtaining a Lake County minor or major use permit and state licensure and permits as required.	
Applicant, Section 27.13(at)(1)(ii)(e), pg. 27-113	Applicant. If the applicant is other than a natural person (including general partnerships of more than one individual natural person), the applicant must provide documentation regarding the nature of the entity and the names of the individual natural persons who manage, own or control the entity. The most common entities are corporations, limited liability companies (LLCs), limited partnerships (LPs), or trusts. These entities can be multi-layered and/or interlocking, e.g. a corporation can be owned by another corporation. If that is the case, documents for those other related entities are needed until the individual natural	To accept the language, amending language to mirror state, if applicable. Recommended language: If the applicant is other than a natural person (including general partnerships of more than one individual natural person), the applicant must provide documentation regarding the nature of the entity and the names of the individual natural persons who manage, own or control the entity. The most common entities are corporations, limited liability companies (LLCs), limited partnerships (LPs), or trusts. These entities can be multi-layered and/or interlocking, e.g. a corporation can be owned by another corporation. If that is the case, documents for those other related entities are needed until the individual natural persons who manage,	April 8, 2024

	persons who manage, own or control the entities can be identified.	own or control the entities can be identified.	
Property Owner Approval, Section 27.13(at)(1)(ii)(i), pg. 27-117	If the property where the cannabis activity is to be located is not owned by the applicant, written approval shall be obtained from the property owner(s), containing the property owner(s) notarized signature that authorizes the tenant or lessee to cultivate cannabis at the site. A copy of the written approval shall be maintained by the tenant or lessee and made available for review by enforcement officials upon request. Written approvals shall be renewed annually.	Recommended language: If the property where the cannabis activity is to be located is not owned by the applicant, written approval shall be obtained from the property owner(s), containing the property owner(s) notarized signature that authorizes the tenant or lessee to cultivate cannabis at the site, and the property owner shall be listed as a co-applicant and co-permittee for the approved project. A copy of the written approval shall be maintained by the tenant or lessee and made available for review by enforcement officials upon request. Written approval shall be renewed annually. 		Use of pesticides, as defined, requires an Operator ID, and any appropriate pesticide applicator certificate. - Keep in Prohibited or Restricted Section of Draft Ordinance - Also refer to pesticides in Development Standards	
Protection of Minors, Section 27.3(at)(1)(iii)(iv), pg. 27-120	(a) No permittee shall: a. Sell, transfer or give cannabis or cannabis products to persons under 21 years of age; b. Allow any person under 21 years of age into the cultivation area; c. Employ or retain persons under 21 years of age.	 -Change 'cultivation area" to "permitted premises" and refer to state regulations. Recommended language: No permittee shall: a. Sell, transfer or give cannabis or cannabis products to persons under 21 years of age; b. Allow any person under 21 years of age into the cultivation area permitted premises; c. Employ or retain persons under 21 years of age, pursuant to Section 15000.6 in the DCC Regulations. Note: current definition of "premises" in Article 68: The designated structure or structures and land specified in the application that is owned, leased, or otherwise held under the control of the applicant or permittee where the commercial cannabis activity will be or is conducted. A premises can be a portion of or all of a single lot of record. (Ord. No. 3709, 12/11/2018) 	October 29, 2024
Commercial Cannabis Cultivation Exclusion Areas, Section 27.3(at)(1)(iii)(v), pg. 27-120	Commercial cannabis cultivation is prohibited within 1,000 feet of the following areas or uses:	-Add Clear Lake at 7.79 Rumsey as public lands. - Add subsection K stating that the permits approved prior to changing setbacks abide	November 4, 2024; November 15, 2024;

	horizontally from the areas or uses to the cannabis cultivation site.		
vi. Important Farmland	Lake County Important Farmland Farming and agriculture is Lake County is important to our economy. Cannabis may present certain conflicts with more traditional farming. In order to ensure the protection of all agricultural industries within the county, the following rules will apply when cannabis cultivation interfaces with Farmland Protection Zones. If an applicant finds that their project is in an area where they shall not be allowed to cultivate outdoors, then their cannabis cultivation shall be limited to indoor, mixed light, and greenhouses that equipped with filtrations systems that prevents the movement of odors, pesticides, and other air borne contaminates out of or into the structure. a. Outdoor cultivation of cannabis shall not be allowed within any Farmland Protection Zone. b. Outdoor cultivation of cannabis shall not be allowed within 1000 feet of any Farmland Protection Zone. c. If outdoor cultivation of cannabis is less than one (1) mile from Farmland Protection Zone, vegetation screening is required.	-Replace the word "prevents" with "limits" in the below sentence: If an applicant finds that their project is in an area where they shall not be allowed to cultivate outdoors, then their cannabis cultivation shall be limited to indoor, mixed light, and greenhouses that equipped with filtrations systems that prevents <u>limits</u> the movement of odors, pesticides, and other air borne contaminates out of or into the structure.	November 18, 2024

	 i. Vegetation screening shall consist of woody vegetation or trees that grow to no less than 20 feet tall. ii. Vegetation screening shall be between Farmland Protection Zone and the permitted cannabis canopy area. iii. The species of woody vegetation or trees to be used may be chosen by the permit applicant but should be suited to localized soil and site conditions. Native plant species are encouraged as are plantings which will benefit local fauna. Plantings must be perennial and hardy in the local climate zone as specified in scientific literature or garden catalogs 		
Incomplete and abandoned applications	No current regulations within Article 27 related to abandoned applications. State regulations for abandoned or incomplete applications are listed in Subsection 15012, Incomplete and Abandoned Applications	Proposed language: Incomplete applications will not be processed. Applications will only be considered complete if all of the information required under the Lake County Zoning Ordinance is submitted. The Community Development Department shall issue a written notice to the applicant, by mail, email, or through the Department's permitting system, informing them that the application is incomplete and identifying the information missing from the application. a. If the applicant fails to submit all required information or <u>demonstrate</u> <u>substantial progress</u> within 180 days from	November 14, 2024

		the date of the initial written notice, the application shall be deemed abandoned. b. The Community Development Department will not refund application fees for an incomplete or abandoned application. c. An applicant may reapply at any time following an abandoned application without prejudice and will be required to submit a new application and application fee.	
Setbacks consistent with Water Board	Currently, Article 27 (pg 27-136 under Stormwater Management) states, "Outdoor cultivation, including any topsoil, pesticide or fertilizers used for the cultivation cannabis shall not be located within 100 feet of any spring, top of bank of any creek or seasonal stream, edge of lake, delineated wetland or vernal pool. For purposes of determining the edge of Clear Lake, the setback shall be measured from the full lake level of 7.79 feet on the Rumsey Gauge". Resolution of Intent 20-50, which proposed making setbacks consistent with the State Water Board (allows for 50ft from Class III watercourses), was adopted by the BOS on 5/12/2020 and went to PC for consideration on 2/25/21. However, it never went back to BOS for formal adoption.	-Align setbacks with State regulations on all water courses, with the exception of Clear Lake at 7.79 Rumsey, which is 1,000 foot setback.	November 18, 2024

Table 2, Remaining focus topics to be considered by COTF

Voluntary Withdrawal of Approved Applications	No current regulations within Article 27 related to abandoned applications or voluntary withdrawal.
Operational hours	 Currently, Article 27 (pg. 27-151) states the following pertaining to delivery hours. Operating Hours: Deliveries and pick-ups are restricted as follows: Monday through Saturday: 9:00 a.m 7:00 p.m. Sunday: 12:00 p.m 5:00 p.m. However, construction and operational hours for outdoor and mixed light cultivation and other non-delivery activities are not stated. County noise ordinance notes maximum sound levels for specific hours that have been utilized by Staff. State does not note cultivation hours. Staff notes that some operators have noted wanting (or needing) to be on-site during longer periods of time (6am to 9pm) during summer months.
Records Retention	Article 27 (pg 27-112 and 27-142) notes record retention requirements. Specifically, subsection (au)(4)(ii) states, <i>all records related to commercial cannabis activity as defined by the state licensing authorities shall be maintained for a minimum of seven years.</i>
	However, all operators are required to use METRIC, which allows for electronic record keeping. State regulations are within Subsection 15037, General Record Retention Requirements
Increase setbacks for outdoor cultivation (odor concerns)	Article 27 (Development Standards table on pg 27-110) requires cultivation setbacks of 100 ft from property line and 200 ft from off-site residences (in addition to the 1,000 ft setbacks in the exclusion zones). Some have raised the potential of increasing setbacks as a means to aid in odor nuisance issues.
Self-contained RVs on-site	RVs are commonly found on-site during annual inspections. However, the County Code is silent about this topic, with the exception of a temporary dwelling permit for the construction of a dwelling unit, and temporary construction offices.

Farm Labor Contractor registration posted on-site Notice of Applicability (NOA) date October 31, 2020	State does not require livescans for employees and does not regulate Farm Labor Contractors. COTF is recommending livescans for employees, with the exception of Farm Labor Contractors. Staff is suggesting the Ag Commissioner registration documents be posted on-site for verification Ordinance 3092 established a cutoff date of October 31, 2020, for the Water Board Nation of Applicability (offectively putting a manatorium on pow
2020	Board Notice of Applicability (effectively putting a moratorium on new applications from being submitted). Discussion will include whether the date should be extended to allow for new applications.
Maximum submittal of 12 applications per month	2019 Ordinance applied a moratorium to the number of applications allowed to be submitted. If the NOA date is modified, this item will impact the number of applications accepted.
Cannabis density of cultivation and retail sites	Currently the County Code does not have any limitation to the number of permitted sites allowed in proximity to each other. Additionally, Resolution of intent 20-50 adopted by BOS on 5/12/2020 proposed decreasing the M-Type and A-Type 1A, 2A and 3A minimum lot size from 20 acres to 2 acres and decreasing setbacks from 100 ft to 30 ft from the property line. However, the ordinance was never formally brought forward and adopted.
Adult and Primary Caregiver Medicinal Use	Currently, County regulation states 100 sf maximum structure per patient up to 6 patients. Co-location and clustering of parcels have also been held under identical ownership rather than as residential accessory used on same parcel or vacant parcels. However, Staff cannot confirm medical status due to HIPAA laws. Code Enforcement has been encountering multiple sites having 36 plants without a means of verification. Some potential solutions include: a. Increase square footage of structures to accommodate patient count with a maximum square footage determined by zoning, requiring building permit for any structure greater than 120sf or any structure with electrical mechanical systems regardless of size. b. Require proof of UUID Patient registration card with CA Dept of Health available upon request. c.Consider allowing co-location and clustering of parcels held under identical ownership.

Opt Out and Reduced Canopy Process	Process is not codified in Article 27. Resolution 2024-53 identified June 1 st as the deadline for opt out and request to reduce canopy requests to be received by CDD.
Fallowing	Discussion related to options for fallowing in lieu of cultivation.
Site Reclamation Bond	Discussion will consider whether site reclamation bonds should be required. The bond ensures that when a site is closed or it reaches the end of its permit life, that the land is then returned to its original condition and any monitoring required under the reclamation plan is carried out.
Method for calculating canopy	Clarification is needed related to method for calculating canopy. County definition: The designated area(s) at a licensed premises, except nurseries, that will contain mature plants at any point in time, as follows: (1) Canopy shall be calculated in square feet and measured using clearly identifiable boundaries of all area(s) that will contain mature plants at any point in time, including all of the space(s) within the boundaries; (2) Canopy may be noncontiguous but each unique area included in the total canopy calculation shall be separated by an identifiable boundary that includes, but is not limited to, interior walls, shelves, greenhouse walls, garden benches, hedgerows, fencing, garden beds, or garden plots; and (3) If mature plants are being cultivated using a shelving system, the surface area of each level shall be included in the total canopy calculation. (Ord. No. 3084, 5/21/2019) State Definition: "Canopy" means the designated area(s) at a licensed premises that will contain mature plants at any point in time.
