RE: IS 96-06, UP 96-03

Dear Mr. Burns:

In reviewing your application for a use permit for a scrap metal recycling yard for property in Middletown, we find that there has been no action on the project since January of 1998. Because the project has remained incomplete for so long we are again scheduling the project for consideration of denial without prejudice before the Planning Commission. Denials without prejudice are made for projects that have been incomplete for substantial lengths of time, and no consideration is given to the merits of the projects. Projects that have been denied through this process may be reactivated immediately after the decision by re-application.

You will receive a legal notice prior to the Planning Commission hearing. If you have any questions or additional information regarding the project, please contact me before the hearing date on July 17, 1999.

Sincerely,

A handwritten signature in cursive script that reads "Danielle V. Zalusky".
