570.677.9554

SOLE SOURCE MANUFACTURER LETTER

3rd November 2023

To whom it may concern:

This letter is to confirm that LG Sonic is the sole owner of the patented MPC Buoy Ultrasonic Algae Control & Monitoring System. This system has an algorithm that adjusts treatment based on the water quality data that is downloaded every 30 minutes. Additionally, a team of water quality specialists provide long-term project management. This allows human experience to complement automation. LG Sonic is the sole provider and owner of the monitoring services provided with the system. LG Sonic developed and validated all ultrasonic programs through rigorous laboratory and field testing.

The MPC Buoy and its replacement parts are manufactured exclusively by LG Sonic.

You can find more information about our intellectual property and confidentiality rules at www.lgsonic.com/terms

If you have any questions or need more information, please feel free to contact LG Sonic at 570.677.9554.

Greg Eiffert
