

Good day Board of Supervisors.

RE: 6.10 25-961 11:00am -Consideration of Request for Board Direction regarding Establishment of Ad Hoc Committee for Development of Agriculture Road Standards

Your board has appointed a Lake County Agricultural Advisory Committee made up of two (2) County Supervisors, three (3) crop growers, one (1) organic farmer, and one (1) ag processor.

"IF" Agriculture Road Standards needs to be addressed, the already established AG Advisory Committee could review this topic rather than creating a new AG committee. Why not utilize and empower the AG committee already appointed and seated?

IF for this particular topic, there seems to be a missing seat at the table, appoint another person or two to the existing AG Advisory Committee rather than creating a whole new AG ad hoc committee.

Thank you for your consideration. I will also add that there is great value in looking to other regions to see what is working or not working, but with regard to Ag Roads, Napa County/Napa Valley AG and its terroir is quite different than that of Lake County on several levels including their main AG crop verses the diversity of AG crops in Lake County. Thank you.

-- Monica Rosenthal, Middletown citizen, Farm Bureau Director, and winegrape farmer.
