

Dear Lake County Supervisors,

As Lake County residents living immediately adjacent to the proposed IS 20-25, UP 20-22 WeGrow, LLC cannabis project, **we firmly support the decision made by the Lake County Planning Commission to deny this permit.**

We oppose the approval of this massive-scale cannabis project for a number of reasons, most notably:

1. The history of illegal activity on the proposed site
2. The significant inadequacies in impact studies to date
3. The close proximity to one of the densest residential areas—Hidden Valley Lake, Dohnery Ridge, Shadow Hills, the Ranchos, and Rim Rock Ranch Vineyard Estates—in Lake County

We hope after careful review of this project, you too come to the conclusion that IS 20-25, UP 20-22 WeGrow, LLC would have significant negative impacts on our treasured residential community—Rim Ranch Vineyard Estates.

Respectfully,  
Patrick Wilken and William Dickson
