NOW, THEREFORE, it is mutually agreed by the parties as follows:

I.

CONTRACTOR shall perform services within the times or by the dates provided in Exhibit "A", which by reference is made a part hereof, except that, if applicable, the schedule may be adjusted to reflect any delay in issuance of the Notice to Proceed, or other delay factors not subject to CONTRACTOR control.

At no time shall CONTRACTOR replace project personnel or subcontractor(s) unless previously approved in writing by COUNTY.
- D. If during the term of this agreement the CONTRACTOR discovers any errors, inconsistencies, or omissions in the CONTRACTOR's documents, CONTRACTOR shall promptly notify the County Project Manager, in writing, of the possible error, inconsistency or omission.

II.

COUNTY'S RESPONSIBILITIES

The COUNTY's responsibilities will include the payment for the CONTRACTOR's services and the time period within which payment must be made. Additionally, the COUNTY may agree to provide certain information, documents, work space, and/or materials.

- A. COUNTY Furnished Data: COUNTY will provide to CONTRACTOR all data in COUNTY's possession relating to CONTRACTOR's services on the PROJECT.

- B. Access to Facilities and Property: COUNTY will make its facilities accessible to CONTRACTOR as required for CONTRACTOR's performance of its services. COUNTY will be responsible for all acts of COUNTY's personnel.

III.

CONTRACTOR'S REPORT AND/OR MEETINGS

- A. The CONTRACTOR shall submit progress reports at least once a month. The report should be sufficiently detailed for the COUNTY's Project Manager to determine if the CONTRACTOR is performing to expectations or is on schedule, to provide communication of interim findings and to afford occasions for airing difficulties or special problems encountered so remedies can be developed.
- B. The CONTRACTOR's Project Manager shall communicate with the COUNTY's Project Manager as needed to discuss progress on the project(s).

IV.

SUBCONTRACTORS

- A. Subcontractors**

1. Nothing contained in this Agreement or otherwise, shall create any contractual relation between the COUNTY and any subcontractors, and no subcontract shall relieve the CONTRACTOR of his/her responsibilities and obligations hereunder. The CONTRACTOR agrees to be as fully responsible to the COUNTY for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONTRACTOR. The CONTRACTOR's obligation to pay its subcontractors is an independent obligation from the COUNTY's obligation to make payments to the CONTRACTOR.
2. The CONTRACTOR shall perform the work contemplated with resources available within its own organization; and no portion of the work pertinent to this contract shall be subcontracted without written authorization by the COUNTY's Contract Manager, except that, which is expressly identified in the approved Cost Proposal.

The prime CONTRACTOR, or subCONTRACTOR, shall return all monies withheld in retention from a subCONTRACTOR within 30 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the COUNTY. Federal law (49 CFR26.29) requires that any delay or postponement of payment over 30 days may take place only for good cause and with the COUNTY's prior written approval. Any violation of this provision shall subject the violating prime CONTRACTOR or subCONTRACTOR to the penalties, sanctions and other remedies specified in Section 7108.5 of the Business and Professions Code. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies, otherwise available to the prime CONTRACTOR or subCONTRACTOR in the event of a dispute involving late payment or nonpayment by the prime CONTRACTOR, deficient subCONTRACTOR performance, or noncompliance by a subcontractor. This provision applies to both DBE and non-DBE prime CONTRACTOR and subCONTRACTORS.
2. Any subcontract entered into as a result of this Agreement shall contain all of the provisions of this section.

V.
COMPENSATION AND TERMS OF PAYMENT

Invoices shall reference the project title and shall provide a breakdown of percentage of work completed by project phase. Invoices are due and payable upon receipt. Invoices shall be mailed to the Public Services Department at the following address:

County of Lake
Public Services Department
333 Second St.
Lakeport, California 95453

Upon satisfactory completion of services enumerated in ARTICLE I herein, the final payment of any balance will be due upon receipt of the final invoice. The final invoice should be submitted within 60-calendar days after completion of the CONTRACTOR's work.

- B. **Interest:** Interest at the rate of 1-1/2% per month, or that permitted by law if lesser, will be charged on all past-due amounts starting thirty (30) days after receipt of invoice and required documentation. Payments will first be credited to interest and then to principal.

In the event of a disputed or contested billing, only that portion so contested will be withheld from payment, and the undisputed portion will be paid. COUNTY will exercise reasonableness in contesting any bill or portion thereof. No interest will accrue on any contested portion of the billing until mutually resolved.

If COUNTY fails to make payment in full to CONTRACTOR for services within sixty (60) days of the date due for any uncontested billing, CONTRACTOR may, after giving seven (7) days written notice to COUNTY, suspend services under this AGREEMENT until paid in full, including interest. In the event of suspension of services, CONTRACTOR will have no liability to COUNTY for delays or damages caused COUNTY because of such suspension of services.

- C. **Compensation:** The COUNTY agrees to pay CONTRACTOR an annual sum not-to-exceed one hundred twenty thousand dollars (\$120,000.00), including cost of labor and expenses, to perform the professional services provided by this agreement and as presented in Exhibit "A", attached hereto and incorporated herein. Annual cost increases will not exceed the Consumer Price Index for the San Francisco-Oakland-Hayward area. VII.

DUE PERFORMANCE - DEFAULT

Each party to this Agreement undertakes the obligation that the other's expectation of receiving the performance due under the terms of this Agreement will not be impaired. Upon the occurrence of any default of the provisions of this Agreement, a party shall give written notice of said default to the party in default. If the party in default does not cure the default within ten (10) days of the date of that notice (i.e. the time to cure) then such party shall be in default. The time to cure may be extended at the discretion of the party giving notice. Any extension of time to cure shall be in writing executed by both parties and must specify the reason(s) for the extension and the date the extension of time to cure expires.

Notice given under this provision shall specify the alleged default and the applicable Agreement provision and shall demand that the party in default perform the provisions of this Agreement within the applicable time period. No such notice shall be deemed a termination of this Agreement, unless the party giving notice so elects in that notice, or so elects in a subsequent written notice after the time to cure has expired.

VIII.

TERMINATION

This Agreement may be terminated as follows:

- A. By mutual written consent of the parties; or
- B. By COUNTY or Director of Public Services upon thirty (30) days written notice to CONTRACTOR.

Upon termination prior to the full and satisfactory completion of CONTRACTOR's performance under this Agreement, COUNTY shall not be liable to pay CONTRACTOR the total compensation set forth in Article V of this Agreement, but CONTRACTOR shall be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the CONTRACTOR covered by this Agreement. Upon termination of this contract, ownership and title to all reports, documents, plans, specifications, and estimates produced as part of this contract will automatically be vested in the COUNTY, and no further agreement will be necessary to transfer ownership to the COUNTY.

If this agreement is terminated by COUNTY as a result of alleged negligence, errors or omissions by CONTRACTOR in the performance of its services under this agreement, COUNTY shall have the right to withhold payment due in an amount that is in proportion to the amount found to arise from CONTRACTOR'S negligence, errors or omissions. The proportioned amount shall be withheld until settlement or adjudication.

IX.

provision that coverage afforded under the policies will not be cancelled until at least thirty (30) days prior written notice has been given to COUNTY, ten (10) days' notice if cancellation is due to nonpayment of premium.

CONTRACTOR shall not allow any subcontractor to commence work on his subcontract until the insurance required of the subcontractor has been obtained.

Any failure of CONTRACTOR to maintain the insurance required by this provision, or to comply with any of the requirements of this provision, shall constitute a material breach of the entire Agreement. COUNTY shall not be responsible for any premiums or assessments on the policy.

Certificates evidencing the issuance of the following insurance shall be filed with COUNTY within ten (10) days after the date of execution of this Agreement by CONTRACTOR and prior to commencement of work hereunder.

- A. **Compensation Insurance.** CONTRACTOR shall procure and maintain, at CONTRACTOR's own expense during the term hereof, Workers' Compensation Insurance and Employer's Liability Insurance as required by the State of California, for all employees to be engaged in work. In any case of such work sublet, CONTRACTOR shall require subcontractor similarly to provide Employer's Liability Insurance and Workers' Compensation Insurance for all of the latter's employees to be engaged in such work, unless such employees are covered by the protection afforded by CONTRACTOR's Workers' Compensation Insurance and Employer's Liability Insurance. Employer's Liability Insurance shall be in an amount not less than One Million Dollars (\$1,000,000.00) per occurrence.
- B. **Commercial General Liability.** CONTRACTOR shall procure and maintain, at CONTRACTOR's own expense during the term hereof, upon himself and his employees at all times during the course of this Agreement, Commercial General Liability Insurance (Occurrence Form CG 0001, or its equivalent) for bodily injury, personal injury, and broad form property damage, in an amount of not than One Million dollars (\$1,000,000.00) combined single limit coverage per occurrence, including but not limited to endorsements for the following coverages: Personal and advertising injury, Premises-operations, Products and completed operations, Blanket contractual, and Independent CONTRACTOR's liability. If such policy includes an aggregate limit, such aggregate limit shall be at least double the per occurrence limit required herein.
- C. **Automobile Liability Insurance.** CONTRACTOR shall procure and maintain, at CONTRACTOR's own expense during the term hereof, Comprehensive Automobile Liability Insurance, both bodily injury and property damage, on owned, hired, leased, and non-owned vehicles used in connection with CONTRACTOR's business in an amount not less than One Million Dollars (\$1,000,000.00) combined single limit coverage per occurrence.
- E. **Subcontractors.** CONTRACTOR shall include all subcontractors as insured under the aforesaid policies or shall furnish separate certificates and endorsements to the COUNTY for each subcontractor which shall be subject to review and approval by COUNTY. All insurance coverages for subcontractors shall be subject to each of the requirements hereinabove and contain the additional insured endorsements required of CONTRACTOR described with particularity hereinbelow.

The COUNTY, its officers, officials, employees, and designated agents are to be covered as additional insureds and shall be added in the form of an endorsement to CONTRACTOR's insurance on Form CG 20 10 11 85, or its equivalent. CONTRACTOR shall not commence work under this Agreement until he has had delivered to COUNTY the Additional Insured Endorsements required herein. This provision is not intended to extend to construction contractors contracted by the COUNTY to perform the work of improvement.

Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under subdivision (b) of California Civil Code Section 2782.

- G. **Other Insurance Provisions.** For any claims related to the work performed under this Agreement by CONTRACTOR, the CONTRACTOR's Commercial General Liability insurance coverage shall be primary insurance as to the COUNTY, its officers, officials, employees, designated agents and appointed volunteers. Any insurance or self-insurance maintained by COUNTY, its officers, officials, employees, designated agents or appointed volunteers shall be in excess of the CONTRACTOR's insurance and shall not contribute with it.

Any deductibles or self-insured retentions must be declared to and approved by COUNTY. At the option of COUNTY, either CONTRACTOR shall reduce or eliminate such deductibles or self-insurance retentions as they apply to COUNTY or CONTRACTOR shall provide a financial guarantee satisfactory to COUNTY guaranteeing payment of losses and related investigations, claim administration, and defense and defense-related expenses.

Insurance coverage required of CONTRACTOR under this Agreement shall be placed with insurers with a current A.M. Best rating of no less than A: VII.

Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve the CONTRACTOR for liability in excess of such coverage, nor shall it preclude COUNTY from taking other action as is available to it under any other provision of this Agreement or applicable law. Failure of COUNTY to enforce in a timely manner any of the provisions of this section shall not act as a waiver to enforcement of any of these provisions at a later date.

If any insurance coverage required by this Agreement is provided on a "Claims Made", rather than "occurrence" form, CONTRACTOR agrees to maintain required coverage for a period of three (3) years after the expiration of this Agreement (hereinafter, "Post Agreement Coverage") and any extensions thereof. CONTRACTOR may maintain the required Post Agreement Coverage by renewal or purchase of prior acts or tail coverage. This subprovision is contingent upon Post Agreement Coverage being both available and reasonably affordable in relation to the coverage provided during the term of this Agreement. For purposes of interpreting this requirement, a cost not exceeding 100% of the last annual policy premium during the term of this Agreement in order to purchase prior acts or tail coverage for Post Agreement Coverage shall be deemed to be reasonable.

COUNTY shall include a provision in its contract with the general contractor hired to perform the work of improvement a provision requiring that the general contractor and all of its subcontractors maintain general liability insurance of not less than \$1,000,000 and that such

insurance include the COUNTY, its officers, officials, employees, designated agents, appointed volunteers and SCS Environmental CONTRACTORS and Contractors, as additional insured.

This provision shall not extend to any claim, demand, liability, loss, damage, cost, expenses, and/or attorney's fees covered by the insurance of either party.

Subject: Proposal for Landfill Gas (LFG) Collection System, Operation, Monitoring, Maintenance and Reporting Services at the Eastlake Municipal Landfill, Lake County, California

Dear Mr. Byrd:

In response to your recent request, SCS Field Services (SCS) is pleased to submit the following Scope of Work, Assumptions and Conditions, and Compensation for the subject services. The Scope of Work has been provided to operate, monitor and maintain (OM&M) of the LFG collection system, extraction wells, probes and structure monitoring, at the Eastlake Sanitary Landfill located in Lake County, California. The scope of work, described below, is based on the permit requirements issued by the Lake County Air Quality Management District (LCAQMD) and the AB 32 Landfill Methane Rule (LMR) requirements. The OM&M service period will be from July 1, 2022 through June 30, 2025. SCS understands that County personnel will be checking the LFG flare and collection system during weeks we are not on-site.

SCOPE OF WORK

SCS will operate, monitor, maintain and perform the necessary reporting services for the facilities such that operational goals established by the County, regulatory compliance established by the LCAQMD Authority to Construct (A/C 2013-14) and the LMR are met. The work scope detailed herein will become effective upon authorization by the County. SCS proposes to divide the necessary services into the following categories:

- Task 1 – Routine Monthly Operation, Monitoring, Maintenance and Reporting
- Task 2 – Non-Routine Repair and Maintenance Services
- Task 3 – Surface Emissions Testing
- Task 4 – Surface Emissions Re-testing
- Task 5 – Surface Emissions Reporting
- Task 6 – Flare Stack Emissions Testing
- Task 8 – Annual LFG Throughput Reporting
- Task 8 – Annual Landfill Methane Rule Reporting
- Task 9 – Annual Greenhouse Gas Reporting

TASK 1 – ROUTINE OPERATION, MONITORING, MAINTENANCE AND REPORTING

SCS will provide labor, equipment, and instrumentation to implement the following routine operation, monitoring, and maintenance program for the LFG collection and control system (GCCS):

Monitoring

Monthly

Once per month, the Blower/Flare Station (BFS) will be monitored. Data will be collected, recorded and stored in SCS Etools® Management System for the following:

- Date, time and monitoring personnel
- Meteorological conditions (i.e. wind velocity, barometric pressure, ambient temperature, weather conditions, etc.)
- Extraction blower operating inlet/outlet temperatures and pressures
- Methane, oxygen, carbon dioxide, and balance gas concentrations at flare inlet
- Flare exit gas temperature
- LFG flow rate to flare
- Flare combustion louver and flow control valve positions
- Supply air pressures to BFS components and condensate handling systems (where applicable)
- Check air compressors and oil level (where applicable)
- Check pilot ignition system propane storage tank level.

Operation

Monthly

Once each month, the LFG extraction vertical and horizontal wells and BFS total flow will be monitored and adjusted as required/needed to help control LFG migration, odors and to meet specific site permit and regulatory agency requirements and conditions. In addition to the parameters below, SCS will document testing protocols and instrumentation calibration. Data will be collected, recorded and stored in SCS Etools® Management System for the following:

- Meteorological conditions (i.e., wind velocity, barometric pressure, ambient temperature, weather conditions, etc.)
- LFG temperature and flow
- Wellhead and Lateral Pipeline vacuum/static pressure (where applicable)
- Methane, oxygen, carbon dioxide and balance concentrations

Once each month, main pipeline access ports (where applicable) will be tested for pressure and LFG composition. The results will also be stored in SCS Etools® Management System and analyzed for long-term trends (i.e. pressure drops indicating possible condensate blockages, breakage, etc.).

Quarterly

Once per quarter, the perimeter compliance gas probes will be tested and data retained for inclusion into SCS Etools® Management System as required by the Local Enforcement Agency and Title 27 of the CCR. Test parameters will include the following:

- Date, time and monitoring personnel,
- Meteorological conditions (i.e., wind velocity, barometric
- Pressure, ambient temperature, weather conditions, etc.)
- Relative pressure,
- Methane, oxygen, carbon dioxide and nitrogen (balance) gas concentrations

Once each quarter, the on-site building will be monitored in accordance with Title 27 of the California Code of Regulations (CCR). In addition to the below parameters, SCS will document testing protocols and instrument calibration, locations of area readings equal to or in excess of 1.25 percent by volume in air will be recorded (and appropriate County personnel notified immediately) along with the following:

- Date, time and monitoring personnel meteorological conditions (i.e., wind velocity, barometric pressure, ambient temperature, weather conditions, etc.)
- Methane and oxygen gas concentrations

Once per quarter, SCS personnel will perform calibration and verify functionality of the on-site structure methane sensors located in the scale house and maintenance facilities. SCS will calibrate the Sierra Monitor Sensors in accordance with the manufactures recommendations.

Maintenance

Monthly

Once each month, condensate traps/sumps (including pumps, air supply lines, pump cycle counters etc.) will be checked and observed for proper operation.

Once each month, the operation of LFG control system blowers, flame arresters, flares (including burner heads), well field, condensate sumps/pumps, and chart recorder media will be observed and checked for the following:

- Proper operation
- Accessibility
- Vandalism
- Malfunctions

- Leaks

Once each month, active/inactive blower operation will be rotated.

Once each month, chart recorder media will be downloaded and changed if needed

Quarterly

- Once each quarter, all the alarm signals (i.e. blower failure, flame failure, low/high temperature, etc.) will be simulated for proper operation and notification (if applicable).
- Once each quarter, the blowers (and electrical motor) bearings will be lubricated in accordance with the manufacturers' specifications.
- Once each quarter, the flame arrester will be observed and checked.

Reporting

Monthly

Once each month, SCS will prepare a detailed report for the County containing the data collected, equipment calibration logs, recommendations and a summary of activities performed on the project during the reporting period. Reports will be submitted to the County before the 25th of each month.

TASK 2 - NON-ROUTINE REPAIR AND MAINTENANCE SERVICES

Non-routine services consist of, but not limited to items such as:

- Call out by the Blower/Flare Station automatic alarm notification system or County personnel.
- Repair of main header line breaks (resulting in no gas flow).
- Repair or replacement of broken valves, flex hoses and condensate pumps.
- Repair of above or below grade LFG and condensate piping.
- Extension of LFG extraction wells/relocation of collection system piping.
- Re-checks of LFG Extraction Wells for compliance purposes.

Non-routine service will be performed subsequent to notification and authorization from County personnel. In addition, SCS staff would respond to emergency conditions, as needed, 24 hours per day, 7 days per week.

TASK 3- INTEGRATED AND INSTANTANEOUS SURFACE EMISSIONS MONITORING

Quarterly integrated SEM (and instruments utilized) will be performed in accordance with LMR requirements. SCS will perform integrated monitoring over the landfill surface area in the required 50,000 square foot grid patterns. Monitoring will be performed in accordance with the approved alternatives for field work following rainfall and shall be performed when the average wind speed is less than 5 miles per hour and the instantaneous wind speed remains under 10 miles per hour (unless an alternative for wind speed is accepted by LCAQMD). A portable wind station with recording capabilities will be set up prior to monitoring to verify meteorological conditions are maintained. Integrated monitoring will be performed concurrently with the instantaneous monitoring and will be performed on paths of approximately 25 or 100 feet apart over the landfill surface within the prescribed 50,000 square foot grid pattern. Monitoring will be performed with the detector inlet held within 3 inches above the ground surface. Grid locations exceeding 25 ppmv observed during integrated testing will be recorded and marked on the surface grid monitoring plan map, which shall be submitted to the County. Any locations exceeding 200 ppmv will be recorded using GPS coordinates. In addition, any locations exceeding the 500 ppmv limit will be recorded GPS coordinates. These locations will then be documented into a site drawing for landfill surface or GCCS repairs. During these activities, the landfill cover/surface will be visually inspected for integrity, breaches, or erosion.

Note that as required by the LCAQMD, SCS will perform notification of the monitoring 72 hours prior to commencement and will report any exceedances within 24 hours of discovery.

Pressurized Pipe and Component Leak Monitoring

Quarterly leak monitoring (and instruments utilized) will be performed in accordance with LMR regulatory requirements. SCS will perform landfill gas pressurized pipe and component leak monitoring at the flare station. Monitoring will be performed with the detector inlet held one half of an inch from pressurized pipe and associated components. Any locations exceeding 500 ppmv will be recorded, tagged and submitted to the County for repairs if needed.

If monitoring indicates no exceedances after four consecutive quarters then monitoring spacing can be increased to 100 foot spacing. If any exceedances are detected during the quarterly monitoring and cannot be remediated or repaired within 10 calendar days will result in a return to quarterly monitoring of the landfill on 25 foot spacing. In addition, any exceedances detected during any compliance inspections will result in a return to monitoring of the landfill on 25 foot spacing.

TASK 4 – FOLLOW UP EXCEEDANCE MONITORING

Instantaneous and Integrated monitoring

Within 10 calendar days from an initial integrated or instantaneous exceedance, 25 and 500 ppmv, respectively, SCS will mobilize to the site (following remediation or repairs) and perform re-monitoring in accordance with monitoring procedures described in Task 3. If re-monitoring results indicate no exceedance then no further follow up monitoring is required.

If the re-monitoring results indicate a second exceedance within 10 calendar days, SCS will mobilize to the site (following remediation or repairs) and perform re-monitoring in accordance with monitoring procedures described in Task 3. If re-monitoring results indicate no exceedance then no further follow up monitoring is required.

If the re-monitoring results indicate a third exceedance the County must install a new or replacement LFG extraction well as determined to achieve compliance within 120 calendar days from the third exceedance. SCS will mobilize to the site (following new or replacement well installation) and perform re-monitoring in accordance with monitoring procedures described in Task 3. If re-monitoring results indicate no exceedance then no further follow up monitoring is required.

Pressurized Pipe and Component Leak Monitoring

Within 10 calendar days from an initial pressurized pipe or component 500 ppmv exceedance, SCS will mobilize to the site (following remediation or repairs) and perform re-monitoring in accordance with monitoring procedures described in Task 3 to verify repairs were successful.

TASK 5 – SEM REPORTING

A detailed written report summarizing the results of monitoring activities will be provided to the County within 30 days of the surface emissions testing event. A draft report and documents will be delivered to the County for review. Final deliverables will incorporate County comments and be prepared in a format that could be submitted to regulatory agencies.

TASK 6 – FLARE STACK EMISSIONS SOURCE TESTING

SCS will provide labor equipment, subcontractor and materials to perform the annual engineering source test to comply with LCAQMD Permit number AC-2013-14. As required, prior to the test date, SCS will provide the LCAQMD and the County with the source test protocol, procedures and analysis for review and approval.

Prior to submittal of the test report SCS will perform a review of the test results and report for accuracy and will note any potential compliance issues.

TASK 7 –ANNUAL LFG THROUGHPUT REPORTING

SCS will compile and provide to the County data for inclusion in the 2021 LFG Throughput Worksheet to the LCAQMD. The throughput report data would be compiled and calculated from the existing monitoring data SCS maintains for the Site and from annual source test data provided by the County. Data compiled and calculated by SCS would include:

- GCCS operating hours
- Volume of LFG collected
- Volatile organic compound (VOC) collection rate
- VOC release rate
- Methane collection rate
- Methane release rate
- LFG flow rate
- Non-methane organic compound (NMOC) emission rate

The County will provide other data required by the throughput form, including:

- The waste placement rate by month
- A Statement of Compliance with permit conditions
- Quantity and type of non-LFG fuel used

A draft report will be completed 1 to 2 weeks prior to the submittal deadline, and SCS will submit the final report prior to the deadline

TASK 8 –ANNUAL CALIFORNIA LANDFILL METHANE RULE REPORTING

Annual Reports must include the following information:

- General site information,
- Total volume of LFG collected for the year (reported in standard cubic feet (scf),
- Average composition of LFG collected over the reporting period (reported in percent methane and percent carbon dioxide by volume),
- Gas control device type, installation, rating, fuel type, and total LFG combusted in each control device,
- Date GCCS installed,
- Percent methane destruction efficiency,
- Volume and composition of gas shipped off-site,
- Type and amount of supplemental fuels burned with the LFG,
- Recent topographic map, and;
- All required monitoring data.

Note that the LCAQMD has been delegated by the California Air Resources Board (CARB) to administer the LMR. SCS will compile the required data into a report in a format suitable for submittal to LCAQMD. SCS will provide a draft of the report to County for review. This scope

includes one round of review and revision. After incorporating the County's comments, SCS will finalize and submit to the LCAQMD.

A draft report will be completed 1 to 2 weeks prior to the submittal deadline of March 15, and SCS will submit the final report prior to the deadline

TASK 9 –ANNUAL GREENHOUSE GAS REPORTING

The County is required to report GHG emissions under the federal mandatory reporting rule (MRR). We are including in this proposal a task for completing the reporting for each calendar year inventory reporting which will be due on March 31 of the following year.

Annual Reporting Requirements

Annual Reports must include the following information:

- General site information
- Total volume of LFG collected (reported in standard cubic feet (scf),
- Average methane fraction of LFG collected over the reporting period,
- GCCS uptime and description,
- Waste placement history,
- General stationary combustion emissions,
- Site capacity and closure information,
- Cover types,
- GCCS extent, and;
- Waste depths.

Assuming we receive advance authorization from the County, SCS will begin work on this assignment in February of each year. A draft inventory will be completed 1 to 2 weeks prior to the submittal deadline of March 31 and provided in an Excel file. With County's approval of the draft report, SCS will generate a computer-readable file suitable for upload to the EPA's reporting software and submit the final report prior to the deadline.

General Terms	

1. Labor rates are in effect until June 30, 2023. Any work performed after that date is subject to a new Standard Fee Schedule in accordance with our proposal for Consumer Price Index adjustments.
2. The above rates include salary, overhead, and profit. Other direct charges, such as subcontractors, construction equipment, materials, air travel, freight, auto rental, permits, fees, taxes, tolls, and other costs incurred for the project, will be billed at cost plus 15 percent. The cost of equipment owned by SCS Field Services will not be subject to administrative mark-up. Automobile mileage cost is \$0.57 per mile and is subject to change per Federal IRS laws. Trucks will be charged at \$22.00/hour. (No administrative mark-up will be applied to charges for company owned vehicles.)

3. Invoices will be prepared monthly for work in progress, unless otherwise agreed. Invoices are due and payable upon receipt. Any invoices not paid within 30 days of receipt are subject to a service charge of 1.5 percent per month on the unpaid balance.
4. Payment of SCS Field Services invoices for services performed will not be contingent upon the client's receipt of payment from other parties. The client agrees to pay legal costs, including attorney's fees, incurred by SCS Field Services in collecting any amounts past due and owing on the client's accounts.
5. Rates for Principals may be negotiated on a project-specific basis. Typically, these rates are \$300/hour for Vice Presidents and other Principals and \$350/hour for Senior Vice Presidents and Senior Executives. For special situations, such as expert testimony or international assignments, hourly rates will be on an individually negotiated basis.
6. On short term or one-time assignments, services which require less than eight (8) hours, but more than four (4) hours, will be billed at eight (8) hours. A minimum of four (4) hours will be billed for any service requested which is not conducted in conjunction with an ongoing, long term project (including call-outs after normal work hours), and will be charged portal-to-portal from SCS Field Services offices.
7. For operation, construction, and/or repair work performed on weekends and/or nights (if work exceeds 8 hours in a day), the above rates will be marked up 50 percent. For work performed on Company recognized holidays or beyond 12 hours in a day, the above rates will be marked up 100 percent.
8. These rates are based on non-union, non-prevailing wage scales unless otherwise noted.
9. For long-term on-site project assignments, rates may be discounted on an individually negotiated basis. Long-term on-site personnel are permitted to return home every four (4) weeks. Travel expense shall be invoiced to the client at cost plus 15 percent.
10. For projects that are not local to an SCS Field Services office, thereby requiring crew mobilizations, lodging costs and a \$55 per person per diem cost will be charged. Lodging and per diem costs will be marked up 15 percent.
11. For projects that require crews to mobilize from a local office and stay in a hotel local to a project site to efficiently perform client requested work, a \$55 per day per person per diem cost will be charged to the project as well as a nightly hotel cost. Hotel costs typically range from \$75 to \$175 per night. SCS Field Services will make every effort to find the most cost efficient hotels. In some high expense locations, hotel rates may be above \$175 per night. Hotel and per diem expense will be marked up 15 percent.
12. Costs for equipment and analysis will be billed in accordance with the rates contained on SCS Field Services Standard Fee Schedule for Equipment and Analysis.
