Reason why the property should not be considered a public nuisance: (attach extra sheets if necessary)

This issue has been addressed last year (#EHF21-00189) and was resolved to allow our Pergola to stay. The property owners voted to build a second pergola and we were given written permission by Lake County Code Enforcement to do so. We are asking for shade on our property for those with medical conditions and families. Our neighboring property has been granted the rights we are seeking we just want the same priviledge.

Good news, thank you Zeb.
So does this mean a second Pangola is in our future ?

I recently reached out to Marcus with lake county code enforcement to follow up about our improvements on the beach. Here's the email thread between him and I and it looks like some good news.

Zeb,

From the information provided it does not sound like a permit is required. Enjoy!!

Thank you for getting back to me so quickly. The small improvements are, reconditioning the picnic tables as they give sprinters and are nearly 20+ years old. Along with building another movable pergola much like the current one. Our community has requested we built another as it was so popular.

We were hoping that your supervisor and Chief Building official would grant us an exception as the pergola is not a permanent structure. We also reached out to our district Supervisor and a great talk about how it's a community property used for enjoying the lake.

Cheers.

Zeb

Zeb,

Can you provide more specific information as to the "small" improvements.

The zoning was the issue in the past and the primary zoning purpose for a "R1" property have not been met yet, any permanent structures on the property may be violation of the zoning. I have Cc'd my supervisor and Chief Building official so they may chime in after your response is received.
