Lake County Board of Supervisors
230 Forbes St
Lakeport, California 95451

Dear Tony,

As board president of the Kelseyville Business Association and a resident of Kelseyville, I, on behalf of the KBA would like to ask you to vote NO on the latest Verizon attempt at placing a cell tower in a residential area. We oppose use permit application UP-15-10. Verizon reps attended a recent KBA business meeting and we explained our opposition to this project and suggested alternative places for the tower. We feel that the tower will affect property values in the surrounding area, including proposed subdivisions in the adjoining properties, and will be a major eyesore for tourist traffic that we are trying to attract to the downtown area. We feel that cell service is vital in our area and want Verizon to be able to provide the best possible service to its customers, but this location is not the best choice. We have included a google map of locations that we feel are a much better. These indicated areas are located in industrial areas of Kelseyville area and are in close proximity of the Verizon location.

Thank you for your support and for all that you have done for Kelseyville and Lake County.

Sincerely yours,

Ron Chips
