RE: Cannabis Workshop

During the last half of 2016 the Planning Commission has held a series of public workshops developing a conceptual draft ordinance regarding the development of cannabis in Lake County. As directed by the Board, this conceptual draft provides for a well regulated cannabis industry that protects the public health, safety and welfare. The purpose of this workshop is for the Board to provide direction to the staff in the further development of the ordinance.

Attached are:

1. The conceptual draft ordinance,
2. A spreadsheet providing a matrix of cannabis activities by zoning district,
3. A PowerPoint presentation summarizing the ordinance as well as a preliminary staffing requirements, budget, and schedule for implementation.
