Re: REQUEST FOR PROPOSAL NUMBER 120-0217

To Whom It May Concern:

For seventeen years, Lake County has served the needs of indigent defendants with a contract public defender system. Many of the attorneys currently serving as felony contract public defenders have served throughout either most or the entire tenure of the current contract holder. To address the current need for a contract administrator, two current felony contract holders, Anakalia Sullivan and David Markham, have partnered together to make this Request for Proposal.

Ms. Sullivan and Mr. Markham have agreed to form a law partnership, Lake Indigent Defense to serve as co-contract administrators for Lake County. With over twenty years of experience in criminal defense, Lake Indigent Defense has the combination of institutional knowledge, experience, and community involvement to provide excellent legal services to the citizens of Lake County.

Lake Indigent Defense (LID) will utilize a sub-contract system similar to that which is currently in use by Lake Defense Inc. LID's deep connection to the community enables us to have access to a network of excellent local attorneys, many of whom are already working as contract public defenders. LID will be able to provide up to nine levels of conflict counsel for felony cases, and have practical, workable solutions for the increasing number of conflict cases that have recently occurred. LID will be structured to secure the independent contractor relationship while promoting efficiency and competent representation.

David Markham, a certified specialist in criminal law, has worked in Lake County since 2000 as a criminal defense attorney. Ms. Sullivan has worked as a contract public defender since 2014 and has a thriving private practice based in Lake County. LID's combination of experience will enable us to make a meaningful contribution to the community of Lake County.

Sincerely,

REQUEST FOR PROPOSAL NUMBER :1012-0217
CONTRACT FOR INDIGENT PUBLIC DEFENDER SERVICES

I. Executive Summary

Lake Indigent Defense (hereinafter "LID") is a law partnership uniquely positioned to serve the needs of the indigent in Lake County. LID's primary objective is to create an entity to serve the need for a public defender by utilizing local attorneys as sub-contractors; promoting efficiency; and reducing transition costs between the current contract holder and the new entity. LID's network of local criminal defense attorneys will act as independent contractors, thereby preserving the independent contract relationship between the County and defenders as well as creating a multifaceted approach to conflict counsel. LID will promote dialogue between the Superior Court and local defenders to ensure the needs of the Court are met. LID will employ dedicated staff to ensure there is a communication between clients and the Proposer to ensure that the needs of the client base are being met by competent, responsive counsel.

II. Exceptions

a. Spanish Language Interpreter

In the Request for Proposal, the County requires the employment of one full-time person who is bi-lingual in the Spanish language. LID takes exception to this requirement, as it is not cost effective. LID has connections with several court certified Spanish language interpreters in Lake County who can be utilized on an hourly and as needed basis. Upon request, LID can readjust the cost proposal to reflect an additional employee who is bi-lingual.

III. Approach

LID will be a law partnership that employs two local attorneys, David Markham and Anakalia Sullivan, to administer the contract for indigent defense services. David Markham and Anakalia Sullivan will act as co-administrators of the indigent defense contract. They will have equal duties in contract administration. The purpose of this is to ensure that there is no interruption in contract administration should one of the administrators become ill or otherwise incapacitated. LID will prioritize ensuring that the needs of indigent defendants and the Superior Court are met without interruption. As current felony public defender contract holders, they will continue to carry their caseloads, thereby promoting efficiency and reducing transition costs. LID will have one non-attorney staff person to assist in meeting the reporting requirements of the contract and ensuring that any client complaints or comments about defenders will be properly documented and addressed.

LID understands the tension between allowing contract defenders the latitude to remain independent contractors while at the same time ensuring competent representation that is responsive to the needs of the community. LID will accept all court appointments for indigent defendants, including death penalty cases. LID's relationship with local attorneys will allow us to create a network of private criminal defense attorneys with practices in Lake County to act as independent contractors who will be contractually obligated to accept case assignments from LID. LID will require that sub-contractors have separate, local offices and phone numbers, and give priority in selecting independent contractors to those who have a connection to our community or those whom are willing to relocate to Lake County. LID will award sub-contractors with a flat monthly fee for court appointments. This will contain and control costs

REQUEST FOR PROPOSAL NUMBER :1012-0217
CONTRACT FOR INDIGENT PUBLIC DEFENDER SERVICES

and ensure the necessary level of representation. Because sub-contractor attorneys will be paid on a flat fee monthly basis, administrative costs are contained as there will be no hourly billing to the County.

LID proposes to establish a new office in the City of Lakeport that will be dedicated to the administration of the contract. As existing felony public defender contract holders, LID understands the challenges indigent defendants face in Lake County. Often, out of custody defendants are unable to use phones or the internet to communicate with their counsel. Often, contract public defenders cannot keep regular business hours because of heavy court schedules; such decentralization can create issues in efficiency and responsiveness. To address this need, LID proposes employ one dedicated, full time non-attorney staff person to keep regular business hours and to act as a liaison for the community. This will enable LID to have a dedicated, physical presence in Lake County where indigent defendants can pass messages to their attorneys, or comments or complaints to the contract administrators. LID will ensure that office space will comply with the Americans with Disabilities Act (ADA) and will work with an ADA consulting firm, Michael Sullivan ADA Consulting, to ensure that LID's facility is ADA accessible.

In determining the number of attorneys to be assigned to misdemeanor and felony caseloads, LID has relied on the National Advisory Commission on Criminal Justice Standards and Goals (NAC) Standard 13.12. LID has determined that in order to provide effective representation to indigent defendants in Lake County, 7 felony attorneys and 5 misdemeanor attorneys are necessary.

Lake Indigent Defense
REQUEST FOR PROPOSAL NUMBER :1012-0217
CONTRACT FOR INDIGENT PUBLIC DEFENDER SERVICES

LID will also provide 2 juvenile (W&I 600) attorneys, a conservatorship attorney, a family law attorney to handle paternity actions and civil contempt cases, an attorney to handle appeals and writs, and an attorney assigned to veteran's court. Having these attorneys will ensure that indigent clients receive assistance from attorneys with experience relating to their caseload.

Once an attorney is assigned to a case, that attorney will represent the client to the conclusion of the case.

a. Misdemeanors

With the passage of Proposition 47 and Proposition 64, misdemeanor caseloads have increased dramatically. Cases that were until very recently felonies, such as possession of methamphetamine (Health & Safety Code Sec. 11377), as well as most felonies dealing with the illicit possession of marijuana (Health & Safety Code §§ 11358, 11359, 11360), now have been reclassified as misdemeanors, creating strain on current contract attorneys with misdemeanor assignments. The recent changes in legislation have also increased the complexity of the misdemeanor caseload, and the increase in the number of reclassifications to misdemeanors for current cases as well as increased misdemeanor filings by the District Attorney will add to potential conflicts. To address this, LID will utilize five misdemeanor attorney sub-contractors. The contract administrators will handle any conflicts not covered by the misdemeanor attorneys. This will create five levels of conflict for misdemeanor cases. LID will also hire one defense investigator sub-contractor who will be assigned misdemeanor cases exclusively. A dedicated defense investigator will assist the misdemeanor sub-contract holders in handling increasingly complex cases.

b. Felonies

Lake Indigent Defense
REQUEST FOR PROPOSAL NUMBER :1012-0217
CONTRACT FOR INDIGENT PUBLIC DEFENDER SERVICES

LID will accept all court appointments related to felonies, and assign those cases to independent contractors. In this way, LID will address the need for representation of indigent defendants charged with felonies. LID will utilize a network of seven sub-contractors with local offices to accept court appointments, creating seven levels of conflict. LID's approach will ensure responsive, competent representation and reduce transitions costs. LID will utilize two private investigators as sub-contractors, each with their own private practice. This will allow two dedicated defense investigator sub-contractors who can focus exclusively on felony cases and enable defense counsel to provide competent, responsive representation that ensures indigent defendants' Sixth Amendment right to counsel is protected.

c. Death Penalty

LID will be able to accept appointments for capital cases. David Markham, co-contract administrator and another independent sub-contractor, who has agreed to accept a contract from LID, meet the requirements of California Rules of Court 4.117(f). By using local, independent attorneys with long standing private practices in Lake County, LID will be able to be responsive to the needs of the Lake County Superior Court in the event a death penalty case is filed. This will enable the County to have access attorneys who meet or exceed death penalty appointment requirements under California Rule of Court 4.117, thereby ensuring competent, responsive representation while at the same time controlling costs.

As with the current agreement, in capital cases where the District Attorney seeks the death penalty, the assigned attorneys shall be paid \$75.00 per hour for that case.

d. Quality Control

1. Overview

Lake Indigent Defense
REQUEST FOR PROPOSAL NUMBER :1012-0217
CONTRACT FOR INDIGENT PUBLIC DEFENDER SERVICES

LID understands the need to preserve the independent contractor status of its organization and its sub-contractors while at the same time ensuring representation that is competent and responsive. LID will have a physical office located near the Superior Court in Lakeport, with one dedicated non-attorney staff person whose duties will include documenting in person and phone communications to the contract administrators regarding sub-contractor performance, and assist LID with maintaining and utilizing a central data base system to monitor case loads, conflicts, and *Marsden* motions.

LID will partner with the Lake County Bar Association to provide yearly Mandatory Continuing Legal Education credited seminars on conflicts of interest related to public defense. This seminar will assist contract public defenders in identifying true conflicts of interest and allow sub-contractors to keep abreast of developments related to the Professional Rules of Conduct and case law decisions. This will result in a cost savings to the County by reducing the need for outside conflict counsel.

2. Sub-Contractor Performance

a. Case Management

LID proposes to create a centralized, digital data base that will enable contract administrators to view caseloads, case dispositions, and case transfers due to conflicts of interest and/or *Marsden* motions. LID understands the decentralization of the sub-contractor system can create uncertainties with service delivery to clients. LID's approach will be to gather this information directly from the Superior Court and other sources to create a useful database to identify potential conflicts of interest due to prior representation as well as identify trends in sub contractor performance. The database will also compile data on case filing types, enabling LID

Lake Indigent Defense
REQUEST FOR PROPOSAL NUMBER :1012-0217
CONTRACT FOR INDIGENT PUBLIC DEFENDER SERVICES

to be more responsive in service delivery and re-allocate sub-contractor attorney assignments as necessary.

This database will be an extremely valuable tool for LID and management sub-contractors. Because the information is sourced from the Superior Court, LID will be able to spot trends and identify issues in service delivery without day to day direction of sub contractors. This will enable LID to monitor performance while at the same time ensuring the status of independent contractor is preserved.

b. Conflicts of Interest

Mr. Markham's and Ms. Sullivan's combined experience of over twenty years in Lake County gives LID a deep understanding of the issues related to abuses of conflicts of interest. While an issue for every public defender system, Lake County's model of independent contractor representation and emphasis on de-centralization creates a tendency for abuse and unfair shifting of case loads between sub-contractors. LID proposes a solution that will allow independent contractors to keep their autonomy while at the same time assuring that conflicts of interest are not abused.

Prior to preliminary examination, which often occurs as quickly as ten days after a defendant is arraigned, an independent contractor may conflict off a case without justification to the contract administrator. However, if an independent contractor declares a conflict after the preliminary hearing stage, he or she must disclose the nature of the conflict to a contract administrator. The administrator will document and keep a record in the sub-contractor's file. This system allows independent contractors to use their own, professional judgement in

Lake Indigent Defense
REQUEST FOR PROPOSAL NUMBER :1012-0217
CONTRACT FOR INDIGENT PUBLIC DEFENDER SERVICES

declaring valid conflicts of interest that arise from previous representation of adverse witnesses and co-defendants but ensuring the declaration of conflicts is not abused by sub-contractors. LID's use of a centralized data base will enable contract administrators to identify when conflicts are declared late in any particular case, and spot patterns of potential abuse.

c. Appearance Counsel

The use of appearance counsel will be discouraged by LID. Subcontract attorneys will be allowed to use appearance counsel only after receiving prior approval of LID.

d. Prohibition Against Client Conversion

Because LID will utilize a network of local, private attorneys, LID and its sub-contractors may engage in a private law practice outside of their contractual duties. LID recognizes that the sub-contractor model contemplated by the proposal relies on independent, private attorneys with separate practices. This model will allow LID to address multiple levels of conflict while at the same time being cost effective.

LID proposes that independent contractors may engage in the private practice of law, but no private client shall be accepted whereby Subcontractor would be unable to represent any indigent defendant who would otherwise be eligible for services pursuant to the County Contract.
