

11/13/17

Lake County Board of Supervisors

RE: 11/14/17 agenda item 9.4

Dear Sirs,

Item 9.4 on your agenda for tomorrow states "to consider use of Eastlake Landfill for disposal of debris from wildland fires from outside of Lake County.

As a taxpaying citizen and voter of Lake County, I am requesting a "NO" vote on this agenda item.

Not only could this be a potential danger to the health of our citizens, but as you know, we have already had our share of devastating wildland fires in the last 2 years with literally tons of biohazard waste taken to our already full landfill. It would be absurd to even consider adding more biohazard waste.

There are too many good reasons for not allowing this item to be considered, but you're an intelligent board and already know what would be the "right thing to do" for our community.

Sincerely,

Pat Van Horn
