Reference: Bid 22' Coastal Patrol Boat

To whom it may concern:

Thank you for the opportunity to bid on your lake patrol boat.

We have bid our Rogue Jet "Coastal" model of boat. This is the same hull we have built patrol boats for Napa County Sheriff (3), Tuolumne County, Lake Piru, Lake Casitas, Placer County Sheriff, U.S. Fish and Wildlife in Lodi, and numerous other counties.

The "Coastal" model will be 23' in length with a 102" beam, 78" bottom width, and 1/4" (.250") thickness bottom. You had specified 3/16" bottom but in this size of boat with the large engine it should be the thicker bottom as we have bid.

We do a full welded large box girder longitudinal construction under the floor which is stronger than the small longitudinal construction you specified.

We use a 3" "D" rubber bumper on the sides of the boat rather than the 2" you specified.

We incorporate our radar arch into the welded frame top rather than another arch over top of the welded frame top.

We build our own custom welded "aluminum" trailer custom built to the boat rather than the mass produced bolt together trailers.

Any of your local marine repair facilities can do warranty work. We want to be notified prior to work to instruct on proper repair. The Mercury outboard engine of course needs an authorized Mercury repair center.

Please do not hesitate to call or email me with any questions or need of pictures.
