This Change Order provides for: Balancing of project item quantities to reflect actual Final in-place quantities.

COMPREHENSIVE DESCRIPTION, JUSTIFICATION, AND COST SUMMARY

This project was designed to replace fire damaged water system infrastructure in the Bonanza Springs and Starview water systems. The primary focus was the replacement of water distribution mains and the installation of additional fire hydrants provided by FEMA as a mitigation measure.

This Contract Change Order balances all contract item to reflect actual final in-place quantities from the original project estimates. One less fire hydrant was installed than originally anticipated due to an existing one already being in place, there was also 532 feet less 6" mainline installed than estimated. The project is funded by FEMA and the County's insurance provider.

This Contract Change Order results in a net decrease of \$46,016.00 with a revised contract amount of \$1,797,203.25.
