Lake County Board Of Supervisors:

We the members of the Upper Lake Senior Support Services strongly support the formation of a Joint Powers Agreement to coordinate disaster preparedness in Lake County.

The JPA would be formed for the purpose of getting grants that prioritize fire protection.

We need to harden our houses, prevent fuel buildup and increase evacuation efficiency. Through the JPA, we could provide funds to county entities for citizen education, property safety inspection, code notification and timely enforcement.

Consistent effort to remove the hazards around us could give us a sense of order and peace of mind that will benefit the county during ordinary times as well as in times of emergency: signing the JPA would be of long term benefit to all of us.

Please vote to support the formation of the Joint Powers Agreement.

Sincerely,

A handwritten signature in blue ink that reads "Claudine Pedroncelli".

Claudine Pedroncelli,
President
