8) Project Description:

(Who, What, Where, When and Why)

Who: Lake County Public Health

What: Communications Upgrade.

When: Completed by June 30th 2019

Why: Lake County Public Health is in need of upgraded communications equipment to better support communications leading up to and during an emergency. Much of the departments current equipment is either outdated or obsolete. Communications equipment to be upgraded includes radios, microwave link wireless system, satellite phones, and potential maintenance and support costs. Trainings and travel for conferences may be needed to educate Emergency Preparedness staff on new communication devices as well.
