FROM:

Tina Dawn-Rubin, Environmental Health Aide

RE:

UP 18-20, M type 3; IS 18-25 Initial Study; EA 18-13

Early Activation

APN:

012-004-29, 012-004-05 - 13605 Seigler Canyon Rd,

Lower Lake

The applicant must meet the Lake County Division of Environmental Health requirements regarding on-site wastewater treatment and potable water requirements.

There is currently one Onsite Wastewater Treatment System (OTWS) on parcel 012-004-29 designed to service a 2 bedroom residence and the original permit dates back to 1981. A domestic well permit from January 2008 is on file. There is no information of file for parcel 012-004-05.

The applicant must meet the Lake County Division of Environmental Health setback requirements to the on-site wastewater treatment system and/or wells, streams, intermittent streams, and ponds.

For any proposed building permits or projects where the parcel is serviced by an Onsite Wastewater Treatment System (OTWS) (aka septic system), the applicant may need to demonstrate the location of any proposed or existing structures including residential or commercial dwellings, garages, sheds, barns, green houses, non-perimeter fences, well houses, etc.; the location of any existing or proposed OTWS; the location of any existing or proposed wells; the location of any existing or proposed driveways; and the location of the proposed project (i.e. commercial cannabis cultivation) on a to-scale site plan prior to building permit issuance and/or project approval.

Re: Major Use Permit, UP 18-20 Richard Derum

Mark,

Thank you for providing notice regarding RFR UP 18-20 Derum. We have cultural resources and sites within the proposed project area. Please add a condition to permit "Applicant must engage with the Middletown Rancheria in a Cultural Resource agreement that will provide Tribal Monitoring Services to preserve and protect cultural resources and sites".

Major Use Permit UP 18-20 – M-Type 3, Initial Study, IS

18-25 and Early Activation, EA 18-13

The following sheets are attached for your reference: Sheet 1 cover, Sheet 2 surrounding area aerial, sheet 3 site plan, existing conditions, Sheet 4 site plan proposed conditions, Sheet 5 Cannabis cultivation Site, Sheet 6 Cannabis Related Building Layouts and Sheet 7 Security.

An Initial Study will be prepared for the project, in compliance with the California Environmental Quality Act. Please advise us if additional information is needed, which permits are required from your agency (if any), and of your environmental concerns. Additionally, please advise if your agency recommends any modifications to the project that would reduce potential environmental impacts. Due to the provisions of state law, it is essential that we receive your comments as soon as possible but in no case later than **Tuesday, June 12, 2018**. Please email your comments to Mireya Turner at Mark.Roberts@lakecountyca.gov or mail them to the address listed in the letterhead above.

If you have any questions, please let me know

Sincerely,

mark

RE: Amendment to Notice of Completion - State File No. 2018-10-2012, 'Derum'

Dear State Clearinghouse;

The County of Lake submitted a Notice of Completion and Environmental Analysis to your agency on approximately October 2, 2018, along with 15 copies of the Mitigated Initial Study, County file no. IS 18-24.

The NOC and Initial Study erroneously included Assessor's Parcel Number 012-004-28. *The only affected parcel is 012-004-64*.

We regret any confusion this may have caused. Please let me know if you need another 15 hard copies of the revised Initial Study, County File Number IS 18-24.

Sincerely,

Eric J. Porter Associate Planner

DEVELOPMENT DEP

COUNTY OF LAKE <u>CORRECTION OF</u> NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION -

Project Title: Derum; Use Permit (UP 18-20); Initial Study (IS 18-24); Early Activation (EA

18-13)

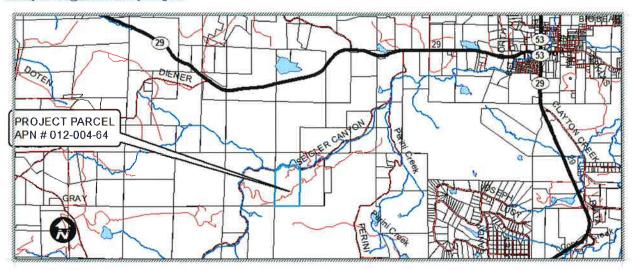

Project Location: 13505 & 13605 Seigler Canyon Road, Lower Lake, CA

<u>CORRECTION:</u> Original Notice of Intent erroneously included APN 012-004-28. This Notice Of Intent ONLY applies to APN 012-004-64.

APN No.: 012-004-28 and 64

Project Description: Approval of up to 22,000 s.f. of outdoor Commercial Cannabis grow site via Use Permit (UP) 18-20; Initial Study (IS) 18-24, and Early Activations (EA) 18-13. The parcel contains one dwelling unit, a 20' x 20' building to be used for drying the plants post-harvest; two 2500 gallon water tanks, and several smaller out buildings. Annual water use is estimated to be 1,600,000 gallons according to the applicant. The parcel is accessible through an existing unimproved County road, Seigler Canyon Drive. In addition to the dwelling, the project site is currently developed with a graveled access road, a site for medicinal cannabis cultivation enclosed by a 6 foot chain link fence and steel gate with a combination lock. There are no mapped sensitive species on the site. The site is not in a flood plain.

The public review period for the respective proposed Mitigated Negative Declaration based on Initial Study IS 18-24 will begin on October 18, 2018 and end on November 17, 2018. You are encouraged to submit written comments regarding the proposed Mitigated Negative Declaration. You may do so by submitting written comments to the Planning Division prior to the end of the review period. Copies of the application, environmental documents, and all reference documents associated with the project are available for review through the Community Development Department, Planning Division; telephone (707) 263-2221. Written comments may be submitted to the Planning Division or via email at eric.porter@lakecountyca.gov.

LAKE COUNTY COMMUNITY

DEVELOPMENT DEPT.

Eric Porter Lake County 255 N. Forbes Street Lakeport, CA 95453

Subject: Major Use Permit UP 18-20

SCH#: 2018102012

Dear Eric Porter:

The State Clearinghouse submitted the above named Mitigated Negative Declaration to selected state agencies for review. On the enclosed Document Details Report please note that the Clearinghouse has listed the state agencies that reviewed your document. The review period closed on November 2, 2018, and the comments from the responding agency (ies) is (are) enclosed. If this comment package is not in order, please notify the State Clearinghouse immediately. Please refer to the project's ten-digit State Clearinghouse number in future correspondence so that we may respond promptly.

Please note that Section 21104(c) of the California Public Resources Code states that:

"A responsible or other public agency shall only make substantive comments regarding those activities involved in a project which are within an area of expertise of the agency or which are required to be carried out or approved by the agency. Those comments shall be supported by specific documentation."

These comments are forwarded for use in preparing your final environmental document. Should you need more information or clarification of the enclosed comments, we recommend that you contact the commenting agency directly.

This letter acknowledges that you have complied with the State Clearinghouse review requirements for draft environmental documents, pursuant to the California Environmental Quality Act. Please contact the State Clearinghouse at (916) 445-0613 if you have any questions regarding the environmental review process.

Sincerely,

Scott Morgan

Lead Agency Lake County

Type MND Mitigated Negative Declaration

Description One Type 3 Cultivation License [outdoor cultivation for adult use cannabis w/o the use of light

deprivation and/or artificial lighting in the canopy area] about 22,000 sf in total canopy size. The cultivation would occur on tax lot 64. The proposed grow area will be fully enclosed with a 6' tall chain link fence, metal gates and security locks, and the site and growing facility will be protected by security surveillance cameras. The two parcels contain one dwelling unit (APN 64), a well, a 20' x 20' building to be used for drying the plants post-harvest; two 2500 gallon water tanks, and several smaller out buildings. There is an existing medicinal grow area at the site of the new grow area that contains up to

48 plants. Annual water use is estimated to be 1,600,000 gallons according to the applicant.

Lakeport, CA 95453

COMMENTS TO REQUEST FOR REVIEW FOR THE MITIGATED NEGATIVE DECLARATION, MAJOR USE PERMIT UP 18-20, EA 18-13, AND IS 18-24 (SPECIALTY TOKES) PROJECT, SCH# 2018102012, LAKE COUNTY

Pursuant to the State Clearinghouse's 4 October 2018 request, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has reviewed the *Request for Review for the Mitigated Negative Declaration* for the Major Use Permit UP 18-20, EA 18-13, and IS 18-24 (Specialty Tokes) Project, located in Lake County.

Our agency is delegated with the responsibility of protecting the quality of surface and groundwaters of the state; therefore our comments will address concerns surrounding those issues.

I. Regulatory Setting

Basin Plan

The Central Valley Water Board is required to formulate and adopt Basin Plans for all areas within the Central Valley region under Section 13240 of the Porter-Cologne Water Quality Control Act. Each Basin Plan must contain water quality objectives to ensure the reasonable protection of beneficial uses, as well as a program of implementation for achieving water quality objectives with the Basin Plans. Federal regulations require each state to adopt water quality standards to protect the public health or welfare, enhance the quality of water and serve the purposes of the Clean Water Act. In California, the beneficial uses, water quality objectives, and the Antidegradation Policy are the State's water quality standards. Water quality standards are also contained in the National Toxics Rule, 40 CFR Section 131.36, and the California Toxics Rule, 40 CFR Section 131.38.

The Basin Plan is subject to modification as necessary, considering applicable laws, policies, technologies, water quality conditions and priorities. The original Basin Plans were adopted in 1975, and have been updated and revised periodically as required, using Basin Plan amendments. Once the Central Valley Water Board has adopted a Basin Plan amendment in noticed public hearings, it must be approved by the State Water Resources Control Board (State Water Board), Office of Administrative Law (OAL) and in some cases,

KARL E. LONGLEY SCD, P.E., CHAIR | PATRICK PULUPA, ESQ., EXECUTIVE OFFICER

Visit the Water Boards Cannabis Cultivation Programs Portal at: https://public2.waterboards.ca.gov/CGO

Additional information about the Cannabis General Order, Cannabis SIUR Program, and Portal can be found at: www.waterboards.ca.gov/cannabis

For questions about the Cannabis General Order, please contact the Central Valley Water Board's Cannabis Permitting and Compliance Unit at: centralvalleysacramento@waterboards.ca.gov or (916) 464-3291.

For questions about Water Rights (Cannabis SIUR), please contact the State Water Board's Division of Water Rights at: CannabisReg@waterboards.ca.gov or (916) 319-9427.

Construction Storm Water General Permit

Dischargers whose project disturb one or more acres of soil or where projects disturb less than one acre but are part of a larger common plan of development that in total disturbs one or more acres, are required to obtain coverage under the General Permit for Storm Water Discharges Associated with Construction Activities (Construction General Permit), Construction General Permit Order No. 2009-009-DWQ. Construction activity subject to this permit includes clearing, grading, grubbing, disturbances to the ground, such as stockpiling, or excavation, but does not include regular maintenance activities performed to restore the original line, grade, or capacity of the facility. The Construction General Permit requires the development and implementation of a Storm Water Pollution Prevention Plan (SWPPP).

For more information on the Construction General Permit, visit the State Water Resources Control Board website at:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml.

Phase I and II Municipal Separate Storm Sewer System (MS4) Permits¹

The Phase I and II MS4 permits require the Permittees reduce pollutants and runoff flows from new development and redevelopment using Best Management Practices (BMPs) to the maximum extent practicable (MEP). MS4 Permittees have their own development standards, also known as Low Impact Development (LID)/post-construction standards that include a hydromodification component. The MS4 permits also require specific design concepts for LID/post-construction BMPs in the early stages of a project during the entitlement and CEQA process and the development plan review process.

¹ Municipal Permits = The Phase I Municipal Separate Storm Water System (MS4) Permit covers medium sized Municipalities (serving between 100,000 and 250,000 people) and large sized municipalities (serving over 250,000 people). The Phase II MS4 provides coverage for small municipalities, including non-traditional Small MS4s, which include military bases, public campuses, prisons and hospitals.

all waters of the State, including all wetlands and other waters of the State including, but not limited to, isolated wetlands, are subject to State regulation.

For more information on the Water Quality Certification and WDR processes, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/help/business_help/permit2.shtml.

Dewatering Permit

If the proposed project includes construction or groundwater dewatering to be discharged to land, the proponent may apply for coverage under State Water Board General Water Quality Order (Low Risk General Order) 2003-0003 or the Central Valley Water Board's Waiver of Report of Waste Discharge and Waste Discharge Requirements (Low Risk Waiver) R5-2013-0145. Small temporary construction dewatering projects are projects that discharge groundwater to land from excavation activities or dewatering of underground utility vaults. Dischargers seeking coverage under the General Order or Waiver must file a Notice of Intent with the Central Valley Water Board prior to beginning discharge.

For more information regarding the Low Risk General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/board_decisions/adopted_orders/water_quality/2003/wqo/wqo2003-0003.pdf

For more information regarding the Low Risk Waiver and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/waivers/r5-2013-0145_res.pdf

Regulatory Compliance for Commercially Irrigated Agriculture

If the property will be used for commercial irrigated agricultural, the discharger will be required to obtain regulatory coverage under the Irrigated Lands Regulatory Program. There are two options to comply:

1. Obtain Coverage Under a Coalition Group. Join the local Coalition Group that supports land owners with the implementation of the Irrigated Lands Regulatory Program. The Coalition Group conducts water quality monitoring and reporting to the Central Valley Water Board on behalf of its growers. The Coalition Groups charge an annual membership fee, which varies by Coalition Group. To find the Coalition Group in your area, visit the Central Valley Water Board's website at: http://www.waterboards.ca.gov/centralvalley/water_issues/irrigated_lands/for_growers/apply_coalition_group/index.shtml or contact water board staff at (916) 464-4611 or via email at IrrLands@waterboards.ca.gov.

For more information regarding the NPDES Permit and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/centralvalley/help/business_help/permit3.shtml

If you have questions regarding these comments, please contact me at (916) 464-4812 or Jordan.Hensley@waterboards.ca.gov.
