serving in a leadership role for an existing or developing healthcare coalition.

Overview

The Healthcare Coalition Response Leadership Course (HCRL) is based on the U.S. Department of Health and Human Services' Healthcare System and the Centers for Disease Control and Prevention Public Health Preparedness Capabilities, as well as best-practice procedures for healthcare-coalition building, preparedness, response, and recovery. The three-day course provides instruction and facilitated discussion in best practices and lessons learned in establishing an effective healthcare-coalition framework and conducting healthcare-coalition planning, as well as achieving preparedness. The course provides instruction on the development of indicators, triggers, and tactics for proactive coalition planning; and approaches techniques, and instruction on the considerations for healthcare coalition response and recovery leadership. The course also provides extensive practical experience in healthcare coalition leadership team response through a series of

progressive exercises designed to
