Good Morning

Since we spoke with you there has been very little activity at the chipping site. As of Friday, 2/21, the large stock pile of chips are gone and they have not chipped anything since. It has been very quiet. I don't know if code enforcement made it out there but if they did I wish to express my thanks to you and them. Let me know when the board of supervisors meeting is so we can attend. Thank you for everything. Mark and Maria

Good Morning,

Sounds good. yes we are in the court house on the 3<sup>rd</sup> floor. When you come in, let them know you have an appointment on the 3<sup>rd</sup> floor with a planner.

mark

Hi Mark,

Thank you for your email and I hope you are well. Are office is closed on Friday but I am able to schedule a meeting. Are there certain times that would work best for you? would 10:00 to 10:30am work?

Is there a possibility that I could meet you in person to explain a few things? Thursday or Friday would be the best days for me. Thank you

**Subject:** [EXTERNAL]7130 Red Hills Road

Good Morning. My name is Mark Barnes and I live at 7140 Eagles Nest Lane which is about 1000 feet east of 7130 Red Hills Road. I received a notification from your office about the Red Hills Bioenergy Project. My biggest problem with the proposal is the noise factor. We have been listening to the extremely loud chipping project from the PG&E that was allowed at 7130 Red Hills Road. I believed the PG&E work would be temporary so I did not voice my concerns to the County. When the grinding is going on it sounds like it is in my side yard. It is extremely loud. This noise sometimes goes on for six to seven hours a day. I understand the chipper being used by PG&E is very large and does make a lot of noise. So I guess my question is, how large is the chipper going to be when the bioenergy plant is in operation? From reading the information on the website it appears chipping will only happen for two to three hours a day. Could you provide any additional information regarding how much noise the project will produce? That would be greatly appreciated.

Also, there has been a fifth wheel travel trailer abandoned on Eagles Nest Lane since the Valley Fire. It has been tagged by the CHP but has not been removed by the county. I would appreciate any assistance in abating this trailer from Eagles Nest Lane. I was told that Eagles Nest Lane was not a county road, however according to the information on file with the county it is a designated county road. Any help would be appreciated. Thank you, Mark Barnes. 707-972-8768
