Hello Board of Supervisors,

Why do you keep delaying the opening of all the businesses in Lake County? Please send the letter and tell the governor we need to open today. I love parades and fire works.

I want the flags at the cemetery before Memorial Day. I love parades and fire works and want to be at the Clearlake carnival. I do not want to wear a mask.

Respirators really do not save you from anything that small. All our cases came here from outside our county. If and when you do open up the county I intend not to wear a respirator; even if I could find a good one. I worked at Chevron in Richmond at we had to wear PPE and it was the rubber kind and we had to fit tested for a size. I may wear a face shield; cause that will protect your eyes.

In a fire we get told leave your house or stay but if you leave you cannot come back. Do that for the virus too. No one in or out of this county so we may stay safe.

Sincerely Mike Raffanelli

Lower Lake, Ca. part of Jefferson territory
