Subject: [EXTERNAL]Open Beauty Salons
Date: Saturday, May 16, 2020 4:12:19 PM

I think it's time to open barber shops and beauty salons with some restrictions such as 6ft distancing for patrons, mask to be worn by both client and operator, clients seen by appointment only, clients can wait outside in their cars and the operator can text them when they are ready. I don't see how a salon is any more dangerous than Walmart or Safeway. Please consider this when opening phase 2 businesses. If anyone, client or owner/operator don't feel safe then they can choose not to participate. It's time we allow citizens the right to make a free choice.

Sincerely,
American Citizen
