LEFTA Systems™ SHIELD Suite
Sole Source Letter

LEFTA Systems™ is the only vendor that provides one comprehensive software platform, SHIELD Suite, consisting of software applications in the areas of:

1. Academy (ATRAX)
2. Field Training (LEFTA)
3. Employee Training Records (METR)
4. Use of Force (FACTS)
5. Internal Affairs
6. Profiling / Field Investigation (PASS)
7. Vehicle Pursuit (VIPR)
8. Fleet Vehicle Damage (V-DOC)
9. Employee Conduct (EMCOT)
10. Immigration Enforcement Tracking (IFIR)

The applications housed under the SHIELD Suite provide an all-inclusive solution for the electronic maintenance and administration of document-based information within an agency. The SHIELD Suite platform also allows a client to manage access for all applications with just one user profile.

Each software application within the SHIELD Suite is a fully independent application that can be customized to client specifications. Customizations can include nomenclature, user permission rights, electronic signature sequence, email alerts and much more.

While they function independently, several of the applications connect with related applications within the platform. The ATRAX academy application links with our LEFTA field training application. LEFTA also links with our employee training records application METR, allowing a clear view of an employee's training from the time they enter the academy until they retire or leave an agency. Other applications allow for the population of data points that were previously captured in different reports, alleviating redundant data entry.

LEFTA Systems™ also offers an optional business intelligence tool that allows clients to intelligently interpret hundreds of data points collected within the SHIELD Suite, as well as incorporating a highly customizable Early Warning System.

We are a cloud-based Software-as-a-Service (SaaS) provider that utilizes Microsoft's AZURE Government to securely host client data with redundancy backup and a four-million-dollar cyber insurance policy.

Our applications are a need-based line of software developed by LEFTA Systems™ specifically to meet the challenges of documenting training and other areas of high liability. LEFTA Systems™ SHIELD Suite is the only integrated product of its kind on the market. We own the development code for these software applications and LEFTA Systems™ is the sole distributor of the SHIELD Suite.

Best regards,

Bryan Selzer
