To the members of the Lake County Board of Supervisors,  
I am writing in support of agenda item 7.4. While quite a few members of this community are wearing their masks (and wearing them properly) and social distancing while in public, there are still those who refuse to do so and their actions have the potential to compromise the health of many of our citizens. I, and members of my family, are part of the "high risk group" and we, as are many high risk people, are now put in the position that we cannot simply "stay home if we are scared". We are now having to return to work as more and more sectors of our economy open up, and we are not safe unless everyone is adhering to the guidelines put forth. I strongly urge the board move to enforce these guidelines, for the safety of our most vulnerable community members. I, and many others, must return to work whether these regulations are enforced or not, and while we will follow these rules, our safety depends on your vote to protect us from those who will not.

Thank you in advance for your consideration,
