---

Dear Gordon Haggitt, County Surveyor,

First of all, thank you for your good work. I am happy to participate in anything that helps the fire department or ambulances reach all of us.

I am happy to have the road on our easement named Egger Road. Jason Egger, our neighbor used to play with his G I Joes in the creek in front of our house before we lived there. His aunt lived next door at that time. Also, my husband and I raised our children to adulthood at 21444 Jerusalem grade and it is close to my heart.

When the name of the street is changed, and also, probably, the house number, I will have to notify my insurance company, and also possibly P G & E and A T & T. I will need documentation to send to these companies. Do I get this documentation at public works? I will have to notify my insurance. Do I need to notify P G & E and A T & T as well?

Thank you so much again,

Ruth M. Arietta
