I am contesting resolution #2020-119. I strongly believe that changing the names of the roads in Jerusalem valley that have been there since the 50s is not a solution. The burden is on the county to correct their mapping program for cal fire and first responders. I am the property owner of 21108 Jerusalem grade. It's has been brought to my attention that my renter signed a form in favor of road name changes. As well as many other renters. I disagree with this. I have been paying taxes for many years on this property. A renter should not be able to sign for a property owner.
