LAKE COUNTY COMMUNITY
DEVELOPMENT DEPT.

TO THE DEPARTMENTS OF Community
DEVELOPMENTS AND PLANNING DIVISION:

This letter is in reply to the proposed
project "EAST SIDE FARMS" - location
23131 Jerusalem Grade.

Our property is directly across from the
"project". We have owned our parcel for
close to forty one years. We are increasingly
alarmed about the rate of growers flocking
to our valley. Our main concern is over
the water useage, especially in drought
years.

The growers are making the profits and
of what benefit is that to us in the
minority of NON growers, if our wells
should go dry? Our well is 260 ft deep
and gives us 30 GPM and we would like
it to stay that way! The shared aquifer
in that area should be just that - shared -
not hogged by profiteers, at the expense
of others.

Ron & Andis Bertley
