To Whom It May Concern:

I am writing to let you know Patty Lanier is a valuable member of our community here in Noble Ranch and I'd like to give support of the application for her MUP 18-28. She has volunteered to be on a committee to address the fire issues here in our community. She's taken the time to meet with the director of the Seigler Springs Community Redevelopment Associations and toured our community to point out areas of concern, with regard to fire safety.

Patty has attended community meetings to address our private road maintenance and suggested ideas to help make improvements and supply resources.

Patty is a team player that is easily approachable, has a ton of knowledge about our area and cares about our environment, here in Noble Ranch. When I say environment, I don't just mean the physical environment, I also, mean helping to create "community" where we can all rely on our neighbors!

She is encouraging to be around and goes out of her way to make our little community a better place to live.

Sincerely,

Julianne Lewis
