**Hello , good morning !**

**Eric , can you give me a call after or 10:00 am or tell me when you can talk please - thanks**

**I understand this situation is not allowing you to let me pay and renew my county permit because of the issues with my ownership of the property and negotiations that I am going through with Georges family , etc..**

**I have my state permit and would gratefully and respectfully ask if you could talk to the head of your department and ask if we can just suspend the county permit process till i can resolve these matters PLEASE . I understand you can not let me move forward till it is resolved but please dont make me have to go through the whole process again please . I have done so much work and gone through so much to get here . Just asking to suspend things please**

**thanks and take care, Pete**
