Subject: Consideration of Presentation on Road Map Task Force (RMTF) Accomplishments, Lessons Learned, and Proposed Community Oriented Policing and Targeted Restoration (COPTR) for Nice, Lucerne and Other Shoreline Area Communities for Fiscal Years 2024/25 through 2026/27

Executive Summary: The Road Map Task Force is a pilot program approved by the Board on August 31, 2021, for the purpose of reducing crime and blight, promoting public safety and enhancement of community beautification to improve the quality of life in the Clearlake Oaks community. With a budget of approximately \$800,000 two Sheriff Deputies and two Code Enforcement Officers were dedicated to the Clearlake Oaks community as their prime focus.

It took time for the Code Enforcement Staff to acquire the needed training and experience to accomplish the RMTF tasks at an optimal efficiency; resulting in a late launch of what was planned to

be a two-year program. The report of RMTF activities in 2022 was presented to the Board on February 28, 2023.

RMTF Lessons Learned

Law enforcement and Code Enforcement work in different ways and with different timetables. When law enforcement takes action against crime in one location, that same criminal activity typically resurfaces in a different location. This was experienced during RMTF, causing a strain on staff resources as the RMTF Deputies were limited to the Clearlake Oaks community and other staff had to follow the criminal action as the ones responsible for the crimes moved to other communities.

Enforcement of the Lake County Code has mandatory timelines to ensure due process rights of our residents and property owners. Although CE staff frequently coordinated efforts with LCSO, CE then remains with the case for longer, as red tags, notices of violation, and citations take time, and have required due process timelines before Staff can proceed to abatement in most cases. Staying focused on the Clearlake Oaks community fit the CE process well.

Community Oriented Policing and Targeted Restoration (COPTR)

Chair Sabatier and Supervisor Crandell met with LCSO, CE, and Administrative Office Staff to discuss results and lessons learned from the Road Map Task Force on March 21, 2024. At that time, Staff proposed continuing the community-oriented program, similar to RMTF, but with a shift in structure to address the lessons learned.

Staff proposes a new three-year focus on the Nice and Lucerne communities, but with the authority of LCSO staff to expand their activities throughout the Shoreline Area Communities, as needed. This would enable law enforcement to follow the illegal activities outside of the Nice and Lucerne communities, as the criminal activity shifts to avoid detection. CE staff would remain focused on the Nice and Lucerne communities for the duration of the term and would use the Lucerne Sub-station as home base in order to maintain a presence in the community.

This focused presence in the communities by law enforcement is called Community Oriented Policing and has a long history as a best practice. The purpose of the new program for Code Enforcement would be a sustained focus on the restoration of these two communities.
