DATE: June 25, 2019

EXECUTIVE SUMMARY: Bids were opened for the second phase of the Anderson Springs sewer district improvement project on June, 3, 2019. Two bids were received, bid tabulation attached for reference. The complete project is being funded by a Community Development Block Grant, State Water Resources Control Board funding, and USDA funding. The agreement has been structured in two components to account for different funding sources on this phase of the project.
